DE TU MANO EN LA HISTORIA OF YOUR HAND IN HISTORY

1890

Fundación de Industrias Ramon Soler. Los inicios fueron en el año 1890 en Manresa (Barcelona), era un taller donde se producían grifería de baño en latón y grifos para barricas de vino. Sus diseños y tecnología ya destacaban desde sus inicios.

Establishment of Industrias Ramon Soler, beginnings go back to 1890 in Manresa (Barcelona), when the firm operated as a workshop that manufactured bathroom fittings and taps for wine casks. Its designs and technology were already patent from the start.

1929

Participación en la Exposición Universal de Barcelona recibiendo la Medalla de Oro al Mérito Industrial. La Exposición supuso un gran desarrollo urbanístico para Barcelona.

Participation in Barcelona Universal Exposition, where the firm received the Gold Medal for Industrial Merit. The Exposition created great urban development in Barcelona.

1968

En el año 1968 alcanzó su momento más álgido, implementando técnicas de joyería de corte de diamante en el diseño de griferías. Se lanzó la serie "Joya", una grifería revolucionaria que marcó el inicio de una nueva era para la firma.

In 1968 the firm reached its peak when it started to implement diamond-cutting techniques in designing its taps. The "Joya" (Jewel) line was launched, a revolutionary tap that marked the start of a new era for the firm.

1986

El año de entrada de España en la CEE, **ramonsoler** inicia su exportación con gran éxito en Francia y Bélgica.

The year that Spain entered the EEC, **ramonsoler** started to export to France and Belgium, with great success.

1987

Primer monomando, Solemix. Un gran avance tecnológico porque con un único mando se consigue regular tanto el caudal de agua como la temperatura de la misma. Actualmente es el tipo de grifo más usado. Este mismo año la firma recibió el Premio EUROFAMA 2000, por la tecnología e innovación de la firma.

First Solemix mixer tap. This represented a great step forward in technological terms, as it regulated the water flow and temperature in a single control. It is currently the type of tap most widely used. That same year, the firm received the EUROFAMA 2000 Award, of the firm's technology and innovation.

1992

Creación de la nueva fábrica en Sant Joan Despí con 9.000 m² de superficie productiva, llegando hasta 16.000 m² en todo el complejo industrial de Barcelona.

Creation of the new plant in Sant Joan Despí with a production area of 9,000 m², reaching a total of 16,000 m² of the entire industrial complex of Barcelona.

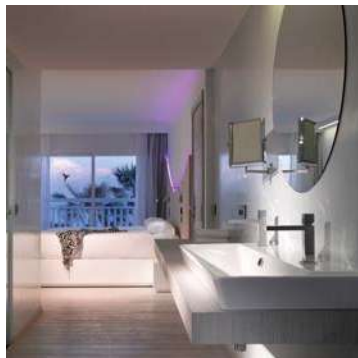

1994

Primer termostático, Termosol. Desde un principio **ramonsoler** triunfó con esta serie por diseño y sobre todo por la alta tecnología de su cartucho termostático.

First Termosol thermostat. This series achieved great success for **ramonsoler** because of its design and above all, its highly technological thermostatic cartridge.

1999

Pioneros en la colaboración con la industria Hotelera.

Se crean colecciones específicas para las exigencias del sector contract. Se realiza una investigación conjunta entre Johnson Wax y **ramonsoler** para asegurar la larga vida de los cromados.

The firm was one of the first to enter into partnership with the Hotel industry. Collections were created specifically tailored for the contract sector. Joint research projects were set up between Johnson Wax and **ramonsoler** to ensure durable chrome plating.

2005

Colaboración con firmas de gran prestigio internacional para crear nuevas colecciones de griferías. Colabora con Swarovski incorporando elementos de cristal en las manetas de las griferías y con La Cartuja de Sevilla para los elementos cerámicos de las griferías Gaudi.

Collaboration with reputed international firms to create new tapware collections. Collaboration with Swarovski, incorporating glass elements into the tap handles and with La Cartuja de Sevilla for the ceramic elements of the Gaudi taps.

2007

Se adelanta a las tendencias ecosostenibles con la serie Mithos, una colección que incorpora la madera en su diseño, con tres tonos: Haya, Cerezo y Wengué.

The firm was a pioneer in incorporating eco-friendly trends with the Mithos series, a collection that includes wood in its design, in three tones: Beech, Cherry and Wengue.

2008

Introducción de la cromoterapia en los baños, se lanza Hidrocrom, el primer rociador que imitaba plenamente a la naturaleza, creando 3 efectos en el agua: oxigenación, iones negativos y cromoterapia desde los colores esenciales.

Colour therapy was introduced in bathrooms, and Hidrocrom, the first sprinkler that imitated nature, was launched, creating 3 effects in the water: oxygenation, negative ions and colour therapy with primary colours.

2009

Lanzamiento de la serie Arola, diseñada por Antoni Arola que incorpora una tecnología muy avanzada con su cartucho progresivo que asegura la apertura en frío para el ahorro de agua y energía.

Launch of the Arola line, designed by Antoni Arola, which incorporated a very advanced technology with its progressive cartridge, opening the cold water flow in order to save water and energy.

2012

Sistema S2-S3/C2-C3 con ahorro de agua y energía incorporado en todos los grifos de 40 y 35 mm. Ello asegura un ahorro de millones de litros de agua diarios manteniendo el pleno confort para el usuario.

Launch of the S2-S3/C2-C3 system with water and energy savings incorporated into all 40 and 35 mm taps. This guarantees savings of millions of litres of water per day while maintaining the comfort of the users.

2016

Nuevo almacén logístico de 3.000 m² que ha permitido un gran salto adelante en gestión logística y en facturación para la firma.

En **ramonsoler** iniciamos un camino de incremento de la investigación y desarrollo consiguiendo numerosas patentes y modelos de utilidad que mejoran sustancialmente nuestros productos, entre ellas, el Sistema Tourbillón, ánodo de sacrificio, WC Magnet y los sistemas de anclaje rápidos.

New logistics warehouse of 3,000 m² which has meant a great leap forward in logistics management and billing for the firm.

ramonsoler started out on the path to increasing R&D, obtaining many patents and utility models that have brought about substantial improvements in our products, including the tourbillon system, the sacrificial anode coating, WC Magnet and rapid anchoring systems.

2018

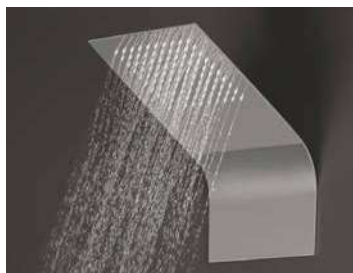

Flagship Store Barcelona.
Situada en centro de Barcelona, donde se encuentran varias espacios emblemáticos de las primeras marcas del mundo del diseño.

Flagship Store in Barcelona.
It is in the centre of Barcelona, where several emblematic spaces of premium design brands are located.

XI Premio Nan de Arquitectura y Construcción en la categoría sanitarios, cocinas, grifería y accesorios. Otorgado por nuestros rociadores de hidroterapia ultraslim, con tan solo 2 mm de grosor.

XI NAN Architecture and Construction Award in the Bathroom fittings, kitchen, tap and accessories category. The firm received this award for its ultra slim hydrotherapy sprinklers, with a thickness of just 2 mm.

2020

Iniciamos la presentación de nuestras nuevas series a Premios internacionales de reconocido prestigio, consiguiendo ya en 2020 el iF Design Award para la colección Urban Chic.

We started to enter our new series for prestigious International Awards and in 2020 we won the iF Design Award for the Urban Chic collection.

2021

La colección Kitchen Magnet es galardonada con el Premio iF Design Award. Un premio reconocido internacionalmente como sello de excelencia en el diseño.

The Kitchen Magnet collection is awarded with the iF Design Award. An internationally recognized award as a seal of excellence in design.

2022

Jordi Soler, recibe el Premio CEO del Año en Diseño y Fabricación de Grifería Sanitaria, como reconocimiento a su experiencia y su papel en la dirección de la industria **ramonsoler**.

Jordi Soler, receives the CEO of the Year Award in Design and Manufacture of Sanitary Fittings, in recognition of his experience and his role in the management of the **ramonsoler** industry.

En 2022 Kitchen Magnet vuelve a ser galardonada, esta vez con el premio DELTA. Kitchen Magnet con un diseño ergonómico y funcional con un caño alto giratorio 360° y extraíble con un sistema de imanes muy innovador.

In 2022 Kitchen Magnet is once again a winner, this time with the DELTA award. Kitchen Magnet has an ergonomic and functional design with a high spout that swivels 360° and is removable with a highly innovative magnet system.

Lanzamiento de la completa colección de accesorios de baño Ergos, disponibles en todos los acabados Quality Finish. La gama comprende desde portarrollos hasta jabonera, colgadores, escobilleros y toalleros de diferentes medidas.

Launch of the complete Ergos bathroom accessories collection, available in all Quality Finish finishes. The range ranges from toilet roll holders to soap dishes, hangers, toilet brush holders and towel rails in different sizes.

Urban Chic obtiene dos nuevos galardones por su exclusivo diseño y su patentado sistema tourbillon. El Premio Red Dot 2022 y el premio German Design Award 2022.

Urban Chic won two new awards for its exclusive design and its patented tourbillon system. Those awards are the Red Dot Award 2022 and the German Design.

reddot winner 2022

2023

La elegante serie Adagio galardonada con tres premios internacionales de diseño: German Design Award 2023, iF Design Award 2023 y Good Design Award. Arte y ciencia en una grifería de gran belleza.

The elegant Adagio series awarded with three international design awards: German Design Award 2023 and iF Design Award 2023. Art and science in a tap of great beauty.

La colección Adagio gana su tercer premio, el Good Design Award, otorgado por el Chicago Athenaeum. Este reconocimiento internacional destaca la excelencia en diseño, innovación y funcionalidad.

The Adagio collection wins its third Good Design Award by the Chicago Athenaeum. This international recognition highlights excellence in design, innovation and functionality.

La Delegación de **ramonsoler** está respaldada por un equipo comercial propio con el objetivo de fortalecer nuestra presencia en el mercado mexicano. Para garantizar un servicio inmediato, se ha establecido un almacén con un amplio stock de nuestros productos. En el 2023 se inaugura nuestra Flagship store en Ciudad de México, donde nuestros clientes podrán experimentar de primera mano la excelencia y la innovación de nuestros productos.

The **ramonsoler** branch is supported by our own sales team with the aim of strengthening our presence in the Mexican market. In order to guarantee immediate service, a warehouse has been set up with a large stock of our products. In 2023 will see the opening of our Flagship store in Mexico City, where our customers will be able to experience first-hand the excellence and innovation of our products.

Se lanza la colección de grifería de cocina Pure Water grifos de cocina extraíble, con sistema de imanes y con sistema de filtrado de agua incorporado.

The Pure Water kitchen faucet collection is launched, pull-out kitchen faucets, with a magnet system and a built-in water filtering system.

El prestigioso organismo francés "Centre Scientifique et Technique du Bâtiment" (CSTB) ha nombrado a **ramonsoler** como miembro titular del Comité NF077, junto a otras destacadas empresas europeas.

El CSTB junto con AFNOR (organismo de certificación francés), son los responsables de la investigación, certificación y difusión de la calidad, la seguridad y la sostenibilidad de productos sanitarios y de fontanería. Juntos, tienen como objetivo dar confianza en los productos y las marcas que cumplan con las rigurosas normativas francesas con certificaciones internacionales.

The Centre Scientifique et Technique du Bâtiment France (CSTB) has appointed **ramonsoler** as a full member of the NF077 Committee, together with other leading European companies. As a reputable manufacturer in the industry, the company brings a wealth of technical and commercial experience, especially in the French market.

Both the CSTB and AFNOR, bodies for the certification and dissemination of quality and safety in sanitary and plumbing products, endorse confidence in our products, which comply with French and European standards.

Lanzamiento de la elegante serie Odisea y Odisea Joya, conmemorando el 60 aniversario de la serie Joya, diseñada por el mismo Ramon Soler Roger, fundador de **ramonsoler**.

Launch of the elegant Odisea and Odisea Joya series, commemorating the 60th anniversary of the Joya series, designed by Ramon Soler Roger himself, founder of **ramonsoler**.

2024

ramonsoler gana el German Design Award 2024 por su proyecto de re-branding 'El arte de fluir'. Implementación de la nueva imagen corporativa de **ramonsoler** y transformación hacia una mayor sostenibilidad en los embalajes. Abarca toda la empresa e impregna tanto a las personas que directamente están al servicio de la misma, como a sus clientes y los millones de usuarios de sus productos y servicios.

ramonsoler.

ramonsoler wins the German Design Award 2024 for his re-branding project 'The art of flow'. New corporate image of **ramonsoler** and transformation towards greater sustainability in packaging. It covers the entire company and permeates both the people who are directly at its service, as well as its customers and the millions of users of its products and services.

Prisma obtiene el premio Red Dot Design Award 2024. La colección recibe este galardón internacional en la categoría de Diseño de Producto 2024 por la alta calidad de su diseño.

Prisma wins the Red Dot Design Award 2024. The collection receives this international award in the Product Design 2024 category for the high quality of its design.

reddot winner 2024

Una revolución en toda la gama de Hidroterapia con nuevos y atractivos modelos. Desde una nueva gama de rociadores empotrados de techo, hasta jets laterales o la nueva ducha de exterior Hércules. **ramonsoler** amplía su gama de acabados con el cobre cepillado y grafito.

A revolution in the entire Hydrotherapy range with new and attractive models. From a new range of recessed ceiling shower heads, to side jets or the new Hercules outdoor shower. **ramonsoler** extends its range of finishes with brushed copper and graphite.

Medalla de plata Ecovadis 2024.

Este premio destaca el compromiso continuo de **ramonsoler** en la promoción de prácticas sostenibles y responsables en el ámbito medioambiental, la gobernanza corporativa y la responsabilidad social. Este logro posiciona a **ramonsoler** en el Top 15, situándola entre el 15% de las empresas con mejor calificación dentro de su sector. La medalla de plata EcoVadis no solo subraya la dedicación de **ramonsoler** a la protección del medio ambiente, sino que también reafirma su liderazgo y excelencia en la adopción de principios éticos y sostenibles en el modelo de negocio.

Ecovadis Silver Medal 2024.

This award highlights **ramonsoler**'s ongoing commitment to promoting sustainable and responsible practices in the environmental, corporate governance and social responsibility fields. This achievement places **ramonsoler** in the Top 15, placing it among the top 15% of companies in its sector. The EcoVadis silver medal not only underlines **ramonsoler**'s dedication to environmental protection, but also reaffirms its leadership and excellence in adopting ethical and sustainable principles in the business model.

2025

Lanzamiento de **solerbath**, una línea global de sanitarios para equipar el baño de forma integral que incluye una completa gama de inodoros, bidets y lavabos de líneas depuradas que se complementan con la grifería y accesorios de baño de **ramonsoler**.

Launch of **solerbath**, a global line of sanitaryware to equip the bathroom in an integral way that includes a complete range of toilets, bidets and washbasins with refined lines that are complemented with **ramonsoler** taps and bathroom accessories.

solerbath.

Recibimos el prestigioso sello de Empresa Innovadora otorgado por el Ministerio Español de Ciencia e Innovación que permite acreditar la condición de empresa innovadora en el mercado.

We received the prestigious Innovative Company certification awarded by the Spanish Ministry of Science and Innovation, which accredits the company's status as an innovative company in the market.

Válido hasta el 24 de julio de 2028

ACABADOS ESPECIALES

SPECIAL FINISHES

Quality Finish es un sistema único y exclusivo de ramonsoler, que hace uso de tecnologías avanzadas para asegurar que cada pieza tenga un acabado uniforme y de la máxima calidad. La resistencia de nuestros acabados es posible gracias a las mejores técnicas de ingeniería: el recubrimiento PVD (Physical Vapour Deposition), que incluye grafito, cobre, níquel y oro cepillado; y el electrostático sobre galvanizado, que consigue un negro mate que destaca por su máxima resistencia a las pruebas de corrosión por niebla salina, su acabado antihuellas y su tacto aterciopelado.

Quality Finish is ramonsoler's unique and exclusive system, which makes use of advanced technologies to ensure that each piece has a uniform finish of the highest quality. The resistance of our finishes is possible thanks to the best engineering techniques: PVD (Physical Vapour Deposition) coating, which includes graphite, copper, nickel and brushed gold; and electrostatic over galvanising, which achieves a matt black that stands out for its maximum resistance to salt spray corrosion tests, its anti-fingerprint finish and its velvety touch.

COMPROMISO

COMMITMENT

En nuestra trayectoria, hemos aprendido que lo más importante es lo que nos rodea: nuestro equipo humano, proveedores, entorno, sociedad y por supuesto, nuestros clientes, quienes nos permiten ser parte de su hogar.

In our trajectory, we have learned that the most important thing is what surrounds us: our human team, suppliers, our environment, society and, of course, our customers, who allow us to be part of their home.

*We take care of your home,
we take care of the planet*

”

TRANSFORMACIÓN CULTURAL

CULTURAL TRANSFORMATION

Lideramos un proceso integral de transformación cultural que abarca todos los aspectos de la empresa, impactando positivamente en las personas, la sociedad y el medioambiente.

Ejes principales:

- Alineación con un propósito de empresa consensuado con todos los empleados que impulse y regenere internamente todas las voluntades.
- Especial cuidado en las políticas de RSC (Responsabilidad Social Corporativa). Protocolos internos, políticas de igualdad de género, conciliación laboral, compliance penal y ayudas sociales, entre otros.
- Trabajamos en un modelo de Economía Circular que nos lleve a maximizar al máximo el cuidado del planeta y nos acerque a un modelo plenamente sostenible.

We lead an integral process of cultural transformation that encompasses all aspects of the company, positively impacting people, society and the environment.

Main focus:

- Alignment with a company purpose agreed upon by all employees that drives and internally regenerates all wills.
- Special care in the application of Corporate Social Responsibility (CSR) policies. Internal protocols as well as gender equality, work-life balance, criminal compliance and social aid policies, among others.
- We work of a Circular Economy model that allows us to permanently protect the planet, bringing us closer to a completely sustainable model.

NUESTRA IDENTIDAD

OUR IDENTITY

Somos lo que cuidamos, y es por eso que hemos dado vida a un proyecto que abarca toda una filosofía destinada a armonizarnos con nuestro entorno, lo que ofrecemos y cómo lo hacemos.

El proyecto de rebranding “El arte de fluir” encapsula todo lo que hemos aprendido y lo condensa en simplificar líneas, sintetizar conceptos y ser más conscientes de la importancia de sentirnos conectados con nuestro entorno.

Por este motivo hemos sido reconocidos una vez más, con el prestigioso premio German Design Award 2024. Este reconocimiento, uno de los más destacados en el ámbito del diseño a nivel internacional, ha distinguido a ramonsoler por su enfoque innovador y la excelencia demostrada en la renovación de su identidad de marca.

We are what we take care of, and that is why we have given life to a project that encompasses a whole philosophy aimed at harmonizing ourselves with our environment, what we offer and how we do it.

The rebranding project “The Art of Flowing” encapsulates everything we have learned and condenses it into simplified lines, synthesizing concepts and becoming more aware of the importance of feeling connected to our environment.

For this reason we have once again been recognized with the prestigious German Design Award 2024. This recognition, one of the most outstanding in the field of design at an international level, has distinguished ramonsoler for its innovative approach and the excellence demonstrated in the renewal of its brand identity.

Hemos renovado nuestra imagen a través de una transformación profunda en un proceso de retorno a nuestra esencia y su proyección hacia un nuevo futuro.

We have renovated our image by means of a profound transformation in a process of returning to our essence and its projection into a new future.

PREMIOS INTERNACIONALES

INTERNATIONAL DESIGN AWARDS

Nuestra experiencia y la constante innovación de nuestros productos ha recibido en los últimos años el reconocimiento internacional de algunos de los mejores Premios en Diseño a nivel mundial.

Las organizaciones cuyo jurado está formado por expertos en diseño de alto prestigio, han valorado la tecnología y la calidad de patentes innovadoras como el Sistema Tourbillon de la colección Urban Chic o el sistema de imanes de la grifería Kitchen Magnet.

Insignias que reconocen la excelencia en el diseño y las inagotables ganas de todo el equipo de **ramonsoler** por crear productos innovadores y sostenibles que mejoren la calidad de vida de las personas y sean respetuosas con el medio ambiente.

In recent years, our experience and the constant innovation of our products have allowed us to receive international recognition in the form of some of the best International Design Awards.

The organisations, whose juries are made up of prestigious experts in design, have placed value on the technology and quality of innovative patents such as the tourbillon system of the Urban Chic collection, or the magnets system in the Kitchen Magnet tapware.

These distinctions recognise excellence in design and the inexhaustible desire of the **ramonsoler** team to create new, sustainable products that will improve the quality of life of people and cause no harm to the environment.

NUESTRA ECONOMÍA CIRCULAR

OUR CIRCULAR ECONOMY

El modelo de Economía Circular está inspirado en la naturaleza y sus procesos. Tiene la plena capacidad de crear ecosistemas sostenibles gracias a la especialización de cada función: materiales, procesos, sistemas y personas.

Es un proceso de mejora continua, con el cual, todas las personas en ramonsoler están colectiva y personalmente implicadas.

En ramonsoler trabajamos desde hace tiempo para mejorar nuestra eficiencia industrial en temas como:

- **Ampliar la vida de nuestros productos** ofreciendo una alta calidad, diseños eficaces y sistemas fáciles de reparar.
- Diseños pensados para **optimizar la utilización de materiales**, la eficiencia en procesos, los volúmenes de transporte y el reciclaje de materiales, entre otros.
- Packaging con **materiales sostenibles y reciclados hasta un 70%**, eliminando plásticos y utilizando materiales de celulosa.
- **Optimizamos el consumo de agua y electricidad** en todas nuestras instalaciones alcanzando un hito importante: hasta la fecha, hemos logrado la autogeneración del 50% de nuestras necesidades energéticas mediante el empleo de placas solares.

The Circular Economy model is inspired by nature and its processes. It has full capacity to create sustainable ecosystems thanks to the specialisation of each function: materials, processes, systems and people.

It is a continuous improvement process in which all the employees of ramonsoler are collectively and personally engaged.

At ramonsoler, we have been working for some time on improving our industrial efficiency in areas such as:

- Extending the life of our products, providing high quality, effective designs and system that are easy to repair.
- Designs that optimise the use of materials, the efficiency of processes, transport volumes and recycling of materials, among others.
- Packaging with sustainable, 70% recycled materials, eliminating plastics and using cellulose materials.
- We optimize water and electricity consumption in all our facilities, reaching an important milestone: to date, we have achieved the self-generation of 50% of our energy needs through the use of solar panels.

NUESTRAS CERTIFICACIONES

OUR CERTIFICATIONS

Nuestra marca está absolutamente implicado en las normativas y sellos que certifican nuestra calidad y son imprescindibles para la eficiencia en la construcción:

- Biblioteca de modelos BIM para la eficiencia en la construcción de edificios.
- Normativas AENOR, NF, DVGW, NOM, BELGAQUA, entre otras.
- Miembro del Comité de la Norma Francesa en grifería sanitaria.
- Socio fundador del programa FDES para el cálculo de la huella de carbono.
- Auditoría externa ECOVADIS, consiguiendo la medalla de Bronce desde el año 2020. En 2024, gracias al trabajo continuo, se han superado las metas y hemos sido galardonados con la medalla de plata Ecovadis 2024. Este prestigioso reconocimiento nos posiciona en el Top 15 de las empresas con mejor calificación dentro de nuestro sector.
- Nuevas referencias con sello BREEAM, LEED y VERDE para edificios sostenibles. Nuestros productos están preparados para el cumplimiento de las certificaciones ambientales de edificio (BREEAM, LEED, VERDE,...) donde el buen uso del agua es una de las líneas fundamentales de actuación, aportando valor sostenible de carácter medioambiental en las edificaciones. Nuestras principales líneas de productos están adaptadas a dichas exigencias y formamos parte del programa BREEAMers, colaborando activamente en eventos y formaciones, como empresa medioambiental y socialmente responsable.

Our brand is fully involved in complying with the standards and certifications that demonstrate our quality and are essential for efficiency in building:

- BIM library to guarantee efficiency in the construction of buildings.
- AENOR, NF, DVGW, NOM and BELGAQUA certifications.
- Member of the French Sanitary Tapware Regulation Committee.
- Founder member of the FDES carbon footprint calculation programme.
- External audit by ECOVADIS, achieving the Bronze medal since 2020. In 2024, thanks to continuous work, we have exceeded our goals and have been awarded the silver medal Ecovadis 2024. This prestigious recognition places us in the Top 15 of the companies with the best qualification within our sector.
- New references with the BREEAM, LEED and VERDE sustainable building certifications. Our products are prepared for compliance with building environmental certifications (BREEAM, LEED, GREEN,...) where the proper use of water is one of the fundamental lines of action, providing sustainable environmental value in buildings. Our main product lines are adapted to the BREEAM requirements. We are also members of the BREEAMers Programme and actively cooperate in events and training sessions, as a socially and environmentally responsible company.

PYME INNOVADORA

INNOVATE PYME

En 2023 recibimos el prestigioso sello de Empresa Innovadora otorgado por el Ministerio Español de Ciencia e Innovación. Este reconocimiento refleja **nuestro compromiso excepcional con la innovación y en el impulso de la tecnología**. La obtención de este sello de innovación acentúa el compromiso constante de ramonsoler con la excelencia, la creatividad y la búsqueda incansable de soluciones innovadoras. Este hito nos impulsa a seguir explorando nuevas fronteras, impulsando la investigación y desarrollo, y contribuyendo de manera significativa al crecimiento sostenible.

In 2023 we received the prestigious Innovative Company seal awarded by the Spanish Ministry of Science and Innovation. This recognition reflects **our exceptional commitment to innovation and the promotion of technology**. Obtaining this seal of innovation accentuates ramonsoler's ongoing commitment to excellence, creativity and the relentless pursuit of innovative solutions. This milestone drives us to continue exploring new frontiers, driving research and development, and making a significant contribution to sustainable growth.

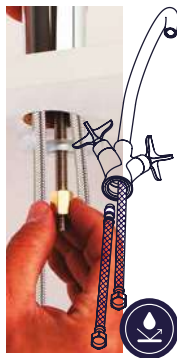

INNOVTECH

Nuestro firme compromiso con la innovación, a través de nuestro programa ramonsoler Innovtech y Programa de Mejora Preventiva, nos ha llevado a generar más de 20 patentes y modelos de utilidad. Nuestra grifería dispone de múltiples sistemas y dispositivos que afectan al ahorro, confort, salud y la seguridad del usuario.

Our firm's unwavering commitment to innovation is patent in the ramonsoler Innovtech and Preventive Improvement Programme, has led us to generate more than 20 patents and utility models. Our taps have multiple systems and devices that affect savings, comfort, health and user safety.

SISTEMA MONOCONTROL

MONOCONTROL SYSTEM

CARTUCHO MEZCLADOR DE AGUA FRÍA Y CALIENTE HOT AND COLD WATER MIXING CARTRIDGE

N New

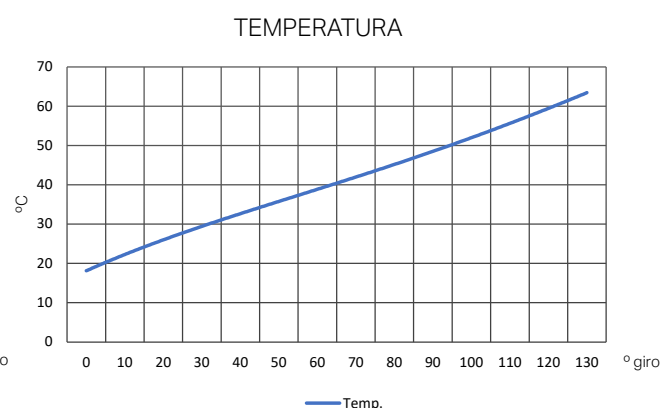

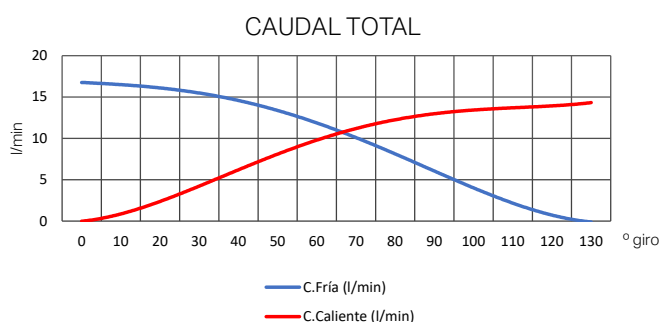

Nuestro sistema patentado monocontrol es sinónimo de innovación, versatilidad y confort, diseñado por nuestro departamento de I+D, siendo un gran logro tecnológico de **ramonsoler**.

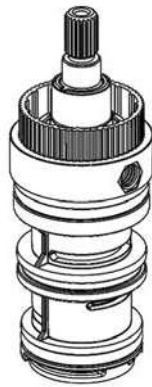

Una de las características más destacadas de este revolucionario sistema es su cartucho mezclador de agua fría y caliente que, además, es intercambiable en todos los cuerpos de grifería termostática de **ramonsoler**. Esta funcionalidad permite una transformación sencilla y rápida del sistema termostático al sistema monocontrol.

Our patented monocontrol system is synonymous with innovation, versatility and comfort, designed by our I+D department, being a great technological achievement of **ramonsoler**.

One of the most outstanding features of this revolutionary system is its hot and cold water mixing cartridge, is interchangeable in all **ramonsoler** thermostatic faucet bodies. This functionality allows a simple and fast transformation from thermostatic to monocontrol system.

CARTUCHOS INTERCAMBIABLES EXCHANGEABLE CARTRIDGES

Cartucho monocontrol
Monocontrol cartridge

El sistema monocontrol se enfoca en la facilidad de uso y, a su vez, incorpora una avanzada tecnología antical, diseñada específicamente para prevenir la acumulación de calcio y otros depósitos minerales.

Su cartucho cuenta con un diseño que no requiere filtros, lo que garantiza un funcionamiento fiable y sin complicaciones. Gracias a esta solución, garantizamos un rendimiento duradero y fiable del sistema, incluso en condiciones extremas, como altas diferencias de temperatura y presión en el suministro de agua.

Además, nuestro sistema es completamente funcional en instalaciones que presentan entradas de aguas invertidas. Esto garantiza que los usuarios experimenten siempre el máximo confort de uso, sin importar las particularidades de su instalación.

Cartucho termostático
Thermostatic cartridge

The monocontrol system focuses on ease of use while incorporating advanced anti-scale technology, specifically designed to prevent the accumulation of calcium and other mineral deposits.

Its cartridge design is filter-free, ensuring reliable and trouble-free operation. Thanks to this solution, we guarantee long-lasting and reliable system performance, even under extreme conditions such as high temperature and pressure differences in the water supply.

In addition, our system is fully functional in installations with inverted water inlets. This ensures that users always experience maximum user comfort, regardless of the particularities of their installation.

ÁNODO DE SACRIFICIO

SACRIFICIAL ANODE

El ánodo, una pieza de zinc-magnesio, se introduce en el interior del grifo para protegerlo del desgaste y la corrosión, tanto en su interior como en su exterior. El sistema patentado por ramonsoler se coloca en todas las series de grifería y conjuntos de ducha, incluyendo los anclajes verticales, murales y manetas, que también están protegidas. Esta solución supone un importante avance para la durabilidad de la grifería de ramonsoler.

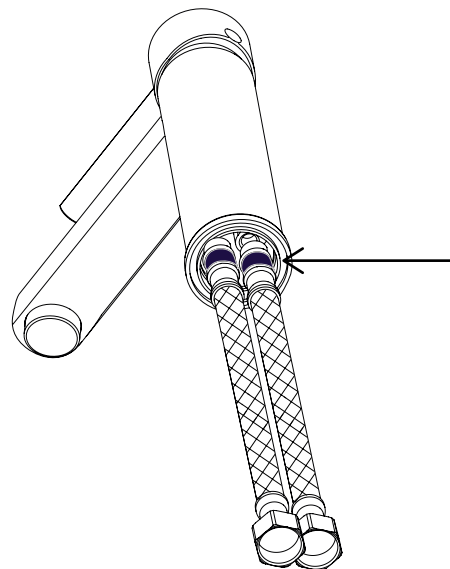

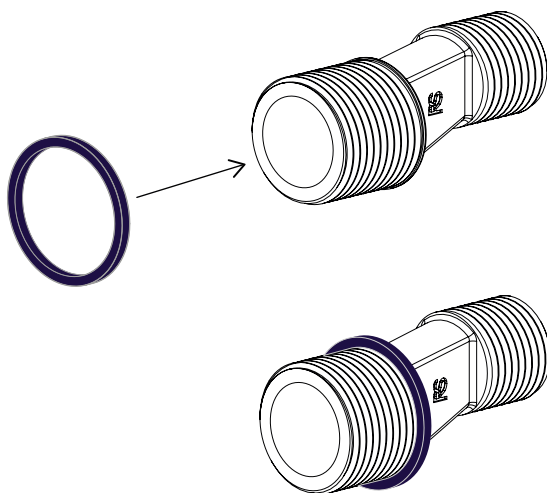

The anode, a piece of zinc-magnesium, is inserted inside the tap to protect it from wear and corrosion, both inside and outside. The system patented by ramonsoler is installed in all series of taps and shower sets, including the vertical, wall and handle anchors, which are also protected. This solution represents an important step forward for the durability of ramonsoler fittings.

SISTEMA INNOVADOR

INNOVATIVE SYSTEM

Este innovador sistema se emplea en manetas, excéntricas y flexos, mejorando la calidad y prolongando la vida útil de los recubrimientos en toda su grifería. Además, con esta patente se garantiza el perfecto estado del acabado Diamond Finish, manteniendo el cromado con un brillo impoluto.

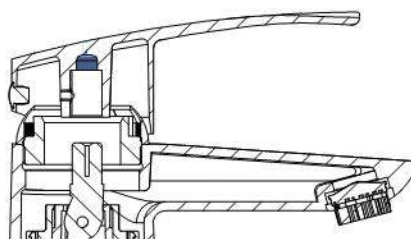

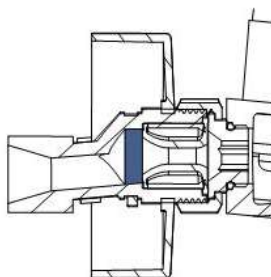

This innovative system is used on handles, eccentrics and flexes, improving the quality and extending the service life of the coatings on all your fittings. In addition, this patent guarantees the perfect condition of the Diamond Finish, keeping the chrome with a perfect shine.

SISTEMA ANTICORROSIVO ANTICORROSIVE SYSTEM

Esta solución protege los metales expuestos a la humedad, evitando su deterioro. Al atraer la corrosión hacia sí mismo, el ánodo impide que materiales como el cobre sufran oxidación. Sin esta protección, el agua puede provocar la formación de óxido, provocando manchas, pérdida de funcionalidad y reducción de la vida útil del grifo. Una instalación adecuada garantiza la protección del metal principal, asegurando así un funcionamiento óptimo y prolongado del sistema hidráulico.

This solution protects metals exposed to moisture from deterioration. By attracting corrosion to itself, the anode prevents materials such as copper from oxidising. Without this protection, water can cause rust to form, resulting in staining, loss of functionality and reduced tap life. Proper installation guarantees the protection of the main metal, thus ensuring optimal and prolonged operation of the hydraulic system.

S2/C2 | S3/C3

En **ramonsoler**, hemos desarrollado varios sistemas de ahorro de agua y energía basados en la exigente normativa francesa C2 y C3. Estos innovadores sistemas están diseñados para optimizar el consumo de agua sin comprometer el confort y la funcionalidad de las griferías.

At **ramonsoler**, we have developed several water and energy saving systems based on the demanding French C2 and C3 standards. These innovative systems are designed to optimise water consumption without compromising the comfort and functionality of the taps.

FUNCIONAMIENTO DEL SISTEMA S2 OPERATION OF THE S2 SYSTEM

El sistema S2/C2 de ahorro de agua al 50% se está aplicando por defecto en casi la totalidad de nuestros grifos, desde la gama más económica hasta las altas gamas, excluyendo los monomandos de cartucho pequeño donde los caudales ya están limitados a 6l/min. Los monomandos de **ramonsoler** disponen de un sistema de doble posición de caudal. Al accionar la palanca para abrir el grifo, el usuario nota una resistencia en un punto del recorrido, donde se suministra el 50% del caudal. Si se desea, el usuario puede accionar la palanca hasta conseguir el máximo de caudal. Nuestros modelos de ingeniería indican que el ahorro de agua y energía estaría alrededor del 30-35%, siempre sin perder confort para el usuario.

The S2/C2 50% water saving system is being applied by default in almost all our taps, from the most economical range to the top of the range, excluding the small cartridge mixers where the flow rates are already limited to 6l/min. **ramonsoler's** single lever taps have a double flow position system. When operating the lever to open the tap, the user notices a resistance at a point along the route, where 50% of the flow is supplied. If desired, the user can operate the lever until the maximum flow rate is reached. Our engineering models indicate that the water and energy savings would be around 30-35%, always with no loss of comfort for the user.

FUNCIONAMIENTO DEL SISTEMA S3 OPERATION OF THE S3 SYSTEM

El sistema S3/C3 combina la apertura central en frío con un tope intermedio en el recorrido vertical de la maneta, contribuyendo al ahorro de agua de hasta el 50%. Esta tecnología incentiva el uso responsable del agua y la energía, representando un gran avance en la lucha por el ahorro energético. Cuando se necesita usar agua caliente, basta con mover la maneta 90° hacia la izquierda desde la posición central, y tanto la temperatura como el caudal de agua responden rápidamente. Este sistema obliga a girar la maneta si se quiere agua caliente, mientras que para usos cotidianos, simplemente se levanta la maneta del grifo desde el centro.

The S3/C3 system combines central cold opening with an intermediate stop in the vertical travel of the handle, contributing to water savings of up to 50%. This technology encourages the responsible use of water and energy, representing a breakthrough in the fight for energy savings. When hot water needs to be used, simply move the handle 90° to the left from the centre position, and both the temperature and water flow rate respond quickly. This system forces you to turn the handle if you want hot water, while for everyday use, you simply lift the tap handle from the centre.

MEJORA EN LOS SISTEMAS DE FIJACIÓN

IMPROVEMENT IN FIXING SYSTEMS

La mejora del sistema beneficia principalmente al instalador, dado que reduce significativamente el tiempo y simplifica el proceso de instalación al eliminar la necesidad de herramientas específicas para montar el grifo.

The improved system primarily benefits the installer, as it significantly reduces time and simplifies the installation process by eliminating the need for specific tools to mount the faucet.

SISTEMA DE HERRADURA FAST

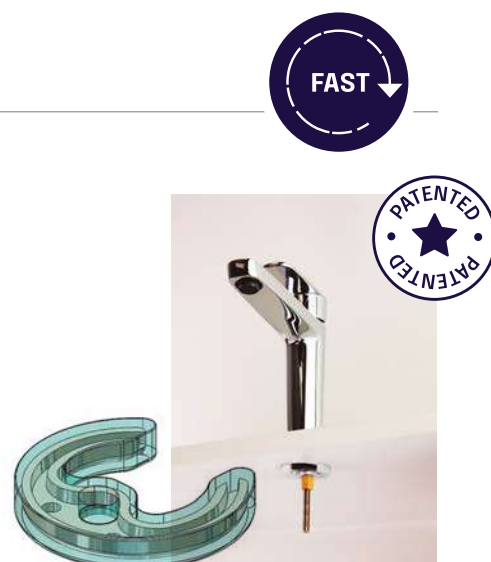

FAST ANCHORAGE SYSTEM

Aplicación general en nuestras series

Nueva herradura sobremoldeada (patentada) para sistema de fijación M8. Este sistema reduce significativamente el tiempo de instalación y simplifica el proceso, eliminando la necesidad de herramientas externas.

General application in our series

New overmolded anchorage (patented) for M8 fastening system. This system significantly reduces installation time and simplifies the process, eliminating the need for external tools.

SISTEMA DE FIJACIÓN TOOL FREE

TOOL FREE FIXING SYSTEM

Sistema de fijación con rosca M32

Conexiones flexibles y junta cuerpo preinstaladas.

Reparte la fuerza de sujeción en 360°.

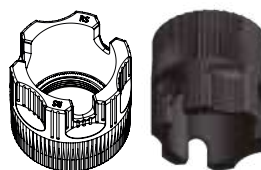

Ánodo de sacrificio en las conexiones flexibles.

Fixing system with M32 thread

Pre-installed body gasket and flexible connections.

Distributes the clamping force in 360°.

Sacrificial anode on flexible connections.

01

Enroscamos tubo M32 a la base del grifo.
We screw the M32 tube to the base of the tap.

02

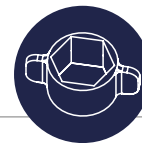

Lo instalamos en el lavabo. Mantiene la estabilidad en 360°.
We install it in the basin. Maintains its stability in 360°.

03

Apretamos la tuerca manualmente para una buena fijación (opcional apriete con llave).
We tighten the nut manually for a good fixation (optional tightening with a wrench).

PALOMETA PASANTE: APLICACIÓN GENERAL FIXING BRACKETS: GENERAL APPLICATION THROUGH

01

Introducimos la palomita en el flexible.
We introduce the fixing bracket in the flexible.

02

Enroscamos el flexible en la llave de paso.
We screw the flexible into the stopcock.

03

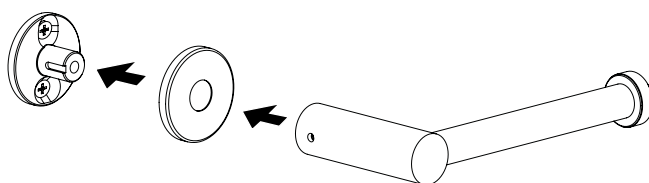

Apretar manualmente para conseguir una buena fijación.
Hand tighten to get a good fixation.

NUEVO SISTEMA DE FIJACIÓN PARA LOS ACCESORIOS ERGOS NEW ANCHORAGE SYSTEM FOR ERGOS ACCESSORIES

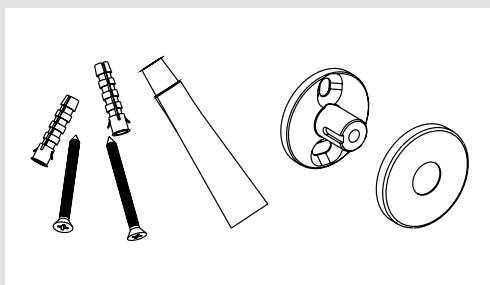

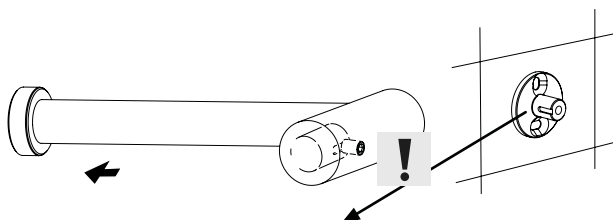

Este nuevo sistema de fijación simplifica los pasos a seguir, manteniendo la seguridad del anclaje del producto. Está diseñado para ofrecer una instalación segura y duradera, adaptándose a diferentes tipos de superficies.

This new fastening system simplifies the steps to follow while maintaining the security of the product's anchorage. It is designed to offer a safe and durable installation, adapting to different types of surfaces.

SISTEMA TOURBILLON TOURBILLON SYSTEM

- 01** Cartucho bajo consumo, donde se controla la temperatura del agua y su caudal.
Low flow cartridge, where it controls its temperature and its flow..
- 02** El agua es enviada hacia la parte inferior del grifo, donde choca contra el fondo y pierde su fuerza.
Sent towards the bottom of the faucet, where it crosses against the fund and loses its strength.
- 03** Remonta en un circuito espiral donde pierde energía. Para finalizar en una caída en cascada.
Comes back in a spiral circuit where it loses energy, to finish in a cascade fall.

ramonsoler ha creado y patentado un circuito de agua único y excepcional que controla la fuerza y tensión del agua, para entregarla de forma clara, silenciosa y amable. Como salida de un manantial.

ramonsoler has created and patented a unique and exceptional water circuit that controls the force and tension of the water, to deliver it in a clear, quiet and friendly way. Like a spring outlet.

El agua pasa a través de un cartucho standard donde se controla su temperatura y su caudal, es enviada hacia la parte inferior del grifo, donde choca contra el fondo y pierde su bravura, para remontar en un circuito en espiral. Desde allí, es reconducida hacia la caída final donde se libera.

The water goes through a standard cartridge where its temperature and flow are controlled, it is sent to the bottom of the tap, where it collides with the bottom and loses its bravery, to go up in a spiral circuit. From there, it is redirected towards the final fall where it is released.

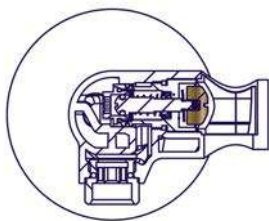

WC MAGNET

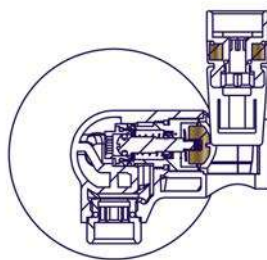

Doble sistema de cierre.
¡No más fugas!

Double safety valve.
No more leaks!

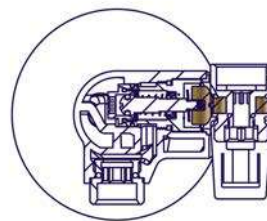

1. Abierto
Fully open

2. Primer contacto
First contact

3. Totalmente cerrado
Fully closed

WC MAGNET

ramonsoler ha creado y patentado una doble válvula de seguridad para las duchitas WC.

Después del uso, cuando volvemos a dejar la duchita en el soporte es muy común olvidarnos de cerrar la maneta. El agua va ejerciendo presión durante horas o incluso días, y entonces es cuando existe un grave peligro de fuga de agua e inundación.

Por eso proponemos una práctica e inteligente innovación, incorporando una doble válvula de seguridad en el cuerpo del monomando, que se cierra cuando la duchita se coloca en su soporte. Un sistema de imanes ayuda a que el cierre del paso de agua sea perfecto.

ramonsoler has created and patented a double safety valve for WC showers.

After use, when we put the shower back on the holder it is very common to forget to close the handle. The water exerts pressure for hours or even days, and then there is a serious danger of water leakage and flooding

That is why we propose a practical and intelligent innovation, incorporating a double safety valve in the body of the mixer, which closes when the shower is placed on its support. A system of magnets helps to close the water passage perfectly.

4. Posiciones para generar diferentes caudales

Nuestra grifería a través de la posición de la capsula se puede regular el caudal en 4 posiciones, generando unos mayores niveles de ahorro de agua.

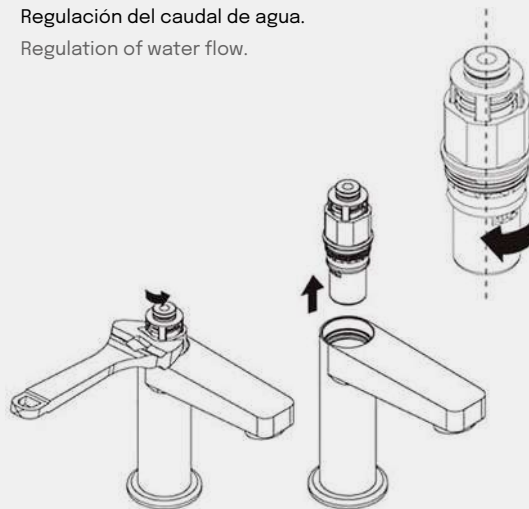

Posiciones
Positions

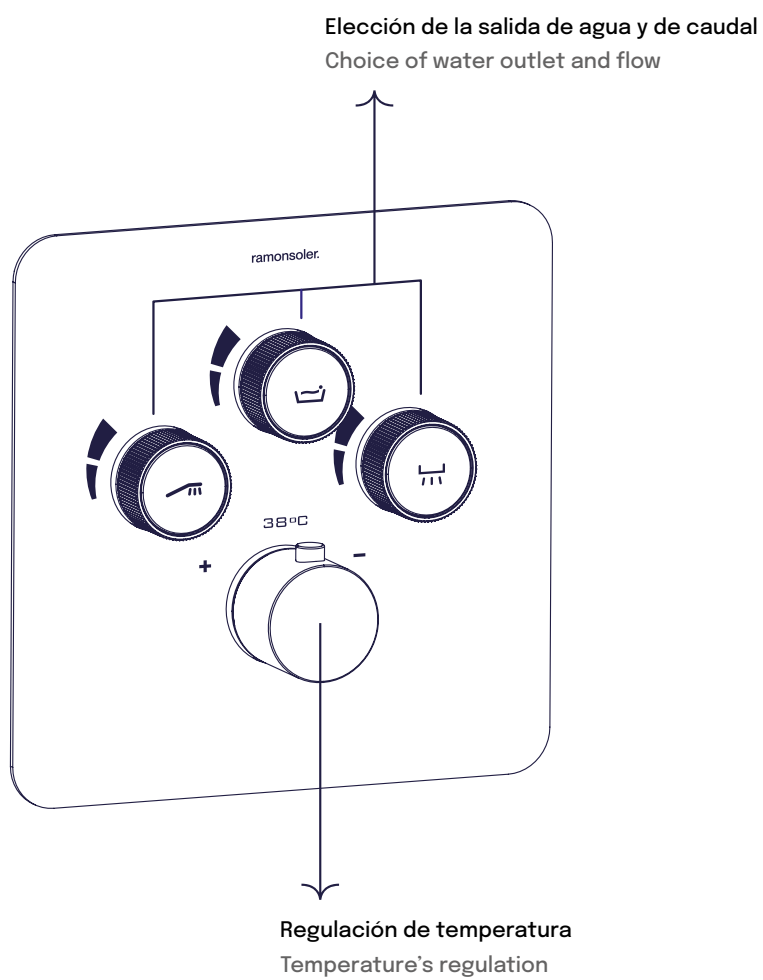

4. Positions to control different flows

Through the capsule position our taps can control the flow in 4 positions, giving higher water level savings.

Regulación del caudal de agua.
Regulation of water flow.

RS SMART

LA DUCHA INTELIGENTE THE INTELLIGENT SHOWER

RS Smart es un empotrado termostático de 2 y 3 vías inteligente, capaz de funcionar al mismo tiempo con diferentes salidas de agua y con regulación de caudal individual para cada salida de agua, de esta manera, RS Smart se adapta a las necesidades del usuario en cada momento.

Con RS Smart se consigue una ducha perfecta: selección de temperatura, salida de agua y intensidad del agua mediante el caudal, todo ello mediante unos botones con doble función creados en **ramonsoler**.

El diseño minimalista permite combinar RS Smart con toda la gama de productos de **ramonsoler**, especialmente los de hidroterapia con grandes rociadores y también permite ahorrar espacio en el baño.

RS Smart is an intelligent 2 and 3 ways concealed thermostatic mixer, capable of operating at the same time with different water outlets and with individual flow regulation for each water outlet, in this way, RS Smart adapts to the user's needs at all times.

With RS Smart you get a perfect shower: selection of temperature, water outlet and water intensity by means of the flow rate, all through dual-function buttons created by **ramonsoler**.

The minimalist design allows RS Smart to be combined with the entire range of ramonsoler products, especially the hydrotherapy products with large shower heads, and also saves space in the bathroom.

I-DESIGN

Salud Health

ANTI-LEGIONELA

Siguiendo los reglamentos y las normativas, disponemos de diversos sistemas que evitan la proliferación de la legionela. Nuestros grifos están diseñados con materiales resistentes a los tratamientos con altas concentraciones de cloro, así como a las altas temperaturas necesarias para realizar el choque térmico previsto por la ley (RD 865/2003).

ANTI-LEGIONELLA

In accordance to international regulations, we have various features which help to eradicate this virus in hydraulic systems. Our tapware incorporates mechanisms which are chlorine resistant and can resist thermal changes as per Spanish Royal Decree (865/2003.)

EXIGENCIAS SANITARIAS

Nuestras griferías superan las exigentes normativas sanitarias (ACS Francia y KTW Alemania), que garantizan que los materiales en contacto con el agua no suponen ningún riesgo para la salud.

SANITARY REGULATIONS

Our tapware is up to the highest standards and complies with Sanitary Regulations (DFWG Germany and NF France) which guarantee the customers piece of mind.

PROTECCIÓN ACÚSTICA

Nuestra grifería dispone de diferentes filtros acústicos tanto en las entradas de agua de los grifos como en el interior de sus mecanismos de regulación, optimizando la protección acústica.

NOISE PROTECTION

Our tapware has acoustic filters both in water connections as well in the mixing cartridges optimizing noise protection.

TERMOSTOP

Las griferías termostáticas disponen de un sistema limitador de temperatura, que indica al usuario el límite de temperatura de uso eficiente de 38°C a 42°C. Este sistema limita, mediante un tope de giro del volante la temperatura del agua caliente, pudiendo sobrepassarlo con solo pulsar un botón.

TERMOSTOP

This system avoids the risk of burns and the excessive consumption of hot water. It permits to limit the maximum temperature lock lever through the lever stroke in mixer taps.

Seguridad Security

HOTBLOCK SYSTEM

Nuestro termostático dispone de un sistema que bloquea automáticamente la salida a alta temperatura, lo que podría provocar quemaduras al usuario.

HOTBLOCK SYSTEM

Automatic blockage system which limits the amount of water exiting at a high temperature and saving the user serious burns.

COOLTOUCH SYSTEM

La grifería termostática permanece siempre templada al tacto, para evitar el riesgo de quemaduras.

COOLTOUCH SYSTEM

Our thermostatic mixers always remain warm to the touch in order to avoid any risk of burns.

WC MAGNET

Sistema de doble seguridad ante el peligro de inundación. Un magneto crea un cierre perfecto.

WC MAGNET

Double security system before the danger of flooding. The magnet makes a perfect closure.

Ahorro Saving

C3/S3

Sistema de ahorro de agua y energía, una combinación eficiente que incorpora sistemas de apertura central en frío y tope intermedio (apertura escalonada o en dos fases). Normativa NF de Francia para el ahorro de agua y energía.

C3/S3

This feature enables us to totally open the tap from a cold water start from the central position of the handle. NF regulations in France.

C2/S2

Nuestros monomandos incorporan un tope intermedio en el recorrido vertical de la palanca. Proporcionando un caudal con un ahorro del 50% de agua. Normativa NF de Francia para el ahorro de agua.

C2/S2

Our single lever basin taps have a double position which limits the water flow on opening the tap. A 50% saving is undertaken, whilst if one wants full flow one only has to open the handle to its maximum. NF regulations in France.

OXIGENACIÓN

Nuestros grifos disponen de un sistema de aireación del agua, lo que supone un considerable ahorro en su consumo, al tiempo que garantiza un uso más confortable, evitando salpicaduras. Mezclar aire y agua permite un ahorro hídrico de un 30% y con un mayor confort.

OXYGENATION

Our tapware includes a special aeration system which saves water as well as giving more comfortable use. It avoids unnecessary splashing saving up to 30% of flow with great comfort.

LIMITADOR DE CAUDAL

Nuestros limitadores permiten determinar qué caudal máximo se desea, reduciendo el consumo de agua y manteniendo el confort de uso. La limitación standard son 3,7 l/m en lavabos y 8 l/m para duchas.

WATER LIMITING

Our water limiting systems can regulate the maximum flow required, reducing water usage and maintaining acceptable levels of comfort. The standard limit is 3.7l/min in basins and 8l/min in showers.

DIAMOND FINISH

La superficie de todas nuestras griferías son muy resistentes y poseen un acabado brillo extra gracias a un proceso de cromado y a rigurosos controles de calidad.

DIAMOND FINISH

All of the tapware surfaces are extra resistant and have a shiny extra finish due to the extensive chroming and polishing process.

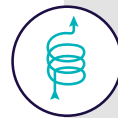

SENSIBILIDAD

Nuestros cartuchos permiten regular cómodamente la temperatura, la mezcla de agua progresivamente, sin cambios bruscos de temperatura. Además, nuestros cartuchos termostáticos reaccionan en menos de un segundo a variaciones de temperatura y caudal manteniendo la temperatura solicitada.

SENSIBILITY

Our cartridges allow you to comfortably regulate the temperature, the water mixing progressively, without sudden changes in temperature. Moreover, our thermostatic cartridges react in less than a second to variable temperatures and flow rates, maintaining the required temperature.

TOURBILLON

Un circuito de agua único y excepcional que controla la fuerza y tensión del agua.

TOURBILLON

A unique and exceptional water circuit that controls the strength and tension of the water.

ÁNODO DE SACRIFICIO

Protegemos de la corrosión las superficies de la grifería con un ánodo de sacrificio de zinc-magnesio el cual se coloca en todas nuestras series, tanto en los anclajes verticales como en los murales, asimismo nuestras manetas están también protegidas. Este sistema patentado por ramonsoler triplica la vida de nuestros recubrimientos por corrosión externa.

SACRIFICIAL ANODE

In ramonsoler we protect the surfaces of the faucet from corrosion with a zinc-magnesium sacrificial anode which is placed in all our series, both in vertical anchors and murals, our handles are also protected. This system patented by ramonsoler triples the life of our external corrosion coatings.

ANTI-CAL

Nuestros rociadores cuentan con boquillas de silicona flexibles las cuales la cal y las impurezas se desprenden fácilmente, incluso frotando con los dedos. Boquillas de máxima calidad resistentes al desgaste, con lo que consigue que el rociador se conserve mejor y que su funcionamiento sea 100% fiable.

ANTI-LIMESTONE

Our hand and headshowers which have flexible silicon out-let tubes filter impurities easily. ramonsoler uses tubing of the highest quality, which means longer lasting components. A complete maintenance cycle also reduces technical problems.

RESISTENCIA

Nuestra grifería destaca por su gran resistencia ya que todos sus componentes externos y acabados, son metálicos lo que permite una gran durabilidad con el paso del tiempo.

RESISTANCE

Our taps stand out for their great resistance, as all their external components and finishes are metallic, which allows for great durability over time.

ERGONOMÍA

El diseño ergonómico de nuestras griferías permite el fácil uso para cualquier persona.

ERGONOMICS

The ergonomic shape of our tapware offers ease of use.

Certificaciones Certifications

AENOR

Certifica que un producto industrial o de consumo cumple las características de calidad definidas por la norma española y europea.

AENOR

Certifies that the product fulfill the Spanish and the European standards.

WATER LABEL

Certificado a nivel Europeo claramente el volumen máximo de agua, si el producto se ha instalado correctamente y de acuerdo con las instrucciones del fabricante.

WATER LABEL

The maximum volume of water if the product has been installed correctly and according to the manufacturer's instructions.

NF

La NF certifica que un producto industrial o de consumo cumple las características de calidad definidas por la norma francesa y europea.

NF

NF Certification certifies that the product fulfill the French and the European standards.

ACS

Certificación francesa que regula los materiales que tienen contacto con el agua.

ACS

French certification which regulates the materials in contact with water.

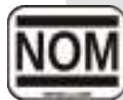

BELGAQUA

Federacion del sector del agua en Bélgica.

BELGAQUA

Belgian Federation for the Water Sector.

NOM

Regulación técnica obligatoria que asegura que los productos comercializados en el país, ya sean nacionales o importados, cuenten con etiquetado en español para proporcionar información clara al consumidor.

NOM

Mandatory technical regulation that ensures that products marketed in the country, whether national or imported, are labelled in Spanish to provide clear information to the consumer.

DVGW

Certificación a fabricantes, empresas especializadas, de servicios públicos y expertos para proporcionar la prueba positiva de cumplimiento con el estado de la técnica de los requisitos.

DVGW

Certification Body enables product manufacturers, specialist companies, utility companies and experts to furnish proof positive of compliance with state of the art requirements.

PUB

Agencia nacional del agua en Singapur.

PUB

Singapore national water agency.

DVGW

La Organización Egipcia de Estandarización establece los criterios ecológicos de obligado cumplimiento en cuanto a eficiencia de consumo de agua, materiales en contacto con agua potable, sustancias prohibidas, longevidad de los productos, packaging e información al usuario.

DVGW

The Egyptian Organization for Standardization establishes the mandatory ecological criteria regarding the efficiency of water consumption, materials in contact with drinking water, prohibited substances, product longevity, packaging and user information.

NUESTROS SERVICIOS

OUR SERVICES

Nuestra garantía va más allá del periodo exigido por la ley, es un compromiso con la calidad. La grifería de **ramonsoler** tiene una garantía de 5 años contra defectos estructurales, de material o de fabricación.

Our guarantee goes beyond the period required by law, it is a commitment to quality. **ramonsoler** taps are guaranteed for 5 years against structural, material or manufacturing defects.

La garantía cubre recambios durante 3 años asegurando la calidad y durabilidad de sus productos. Además, proveemos repuestos hasta 10 años después de que el modelo deje de fabricarse, superando los requisitos legales.

The warranty covers spare parts for 3 years ensuring the quality and durability of your products. In addition, we provide spare parts for up to 10 years after the model has been discontinued, exceeding legal requirements.

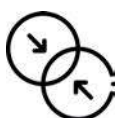

En la sección de profesionales, encontrará asesoramiento para sus proyectos, productos específicos y servicios exclusivos para el sector Contract.

In the professional section, you can find advice for your projects, specific products and exclusive services for the Contract sector.

En el apartado de recursos de nuestra web también puede encontrar instrucciones de montaje y consejos de mantenimiento, planos acotados y recursos 3D y DWG para una planificación óptima de su proyecto.

In the resources section of our website you can also find assembly instructions and maintenance tips, dimensioned drawings and 3D and DWG resources for optimal planning of your project.

La web de **ramonsoler** cuenta con un algoritmo propio que ofrece las mejores combinaciones tanto en grifería como en accesorios para completar su estancia. Encontrará todas las sugerencias dentro de cada producto.

The **ramonsoler** website has its own algorithm that offers the best combinations in both taps and accessories to complete your room. You will find all the suggestions within each product.

A petición del cliente hotelero, **ramonsoler** ofrece un servicio de grabado láser para el logo del hotel. Este grabado es indeleble, garantizando una personalización duradera y de alta calidad en todos sus productos.

At the request of the hotel client, ramonsoler offers a laser engraving service for the hotel logo. This engraving is indelible, guaranteeing a long-lasting and high quality personalisation of all your products.

ramonsoler ofrece asesoramiento personalizado adaptado a las necesidades de cada cliente. Nuestro equipo de expertos garantiza apoyo en la selección, instalación y mantenimiento de productos.

ramonsoler offers personalised advice adapted to the needs of each client. Our team of experts guarantees support in the selection, installation and maintenance of products.

ramonsoler ofrece asistencia técnica personalizada, adaptada a las necesidades del cliente. Nuestros expertos proporcionan apoyo en el mantenimiento y resolución de problemas, técnicos con un asesoramiento de alta calidad.

ramonsoler offers personalised technical assistance, tailored to the customer's needs. Our experts provide maintenance support and troubleshooting, technical support with high quality advice.

ramonsoler cuenta con showrooms en todo el mundo, donde los clientes pueden experimentar la calidad de los productos. Estos espacios están diseñados para ofrecer una experiencia inmersiva para la selección de grifería y accesorios.

ramonsoler has showrooms around the world, where customers can experience the quality of the products. These spaces are designed to offer an immersive experience for the selection of taps and fittings.

ramonsoler ofrece una calculadora de ahorro de agua en su web, permitiendo a los clientes estimar el consumo y ahorro potencial. Esta herramienta ayuda a tomar decisiones informadas para un uso más eficiente y sostenible del agua.

ramonsoler offers a water savings calculator on its website, allowing customers to estimate consumption and potential savings. This tool helps to make informed decisions for a more efficient and sustainable use of water.

FLAGSHIP STORES

Con más de 130 años de historia, **ramonsoler** posee una flagship store en pleno corazón de Barcelona. Ubicado en el número 107 de la calle Vía Augusta, el espacio destaca por su potente estilo industrial.

La firma presenta en este espacio una tienda insignia en la que invita a descubrir su amplio catálogo de griferías para baños, cocinas, espacios contract y públicos.

El diseño de interiores, a cargo de **Carmen Barasona**, conduce al visitante por un recorrido experiencial en el que diseño y el agua son protagonistas.

En octubre de 2023, ramonsoler inauguró su nueva **Flagship Store en Ciudad de México**. Este espacio de vanguardia no solo presenta una exposición de productos de grifería y accesorios, sino que también refleja el compromiso de la empresa con la innovación y la sostenibilidad.

La nueva tienda se encuentra ubicada en el corazón de Ciudad de México y permitirá a los clientes experimentar de primera mano la calidad y el diseño que caracterizan a ramonsoler.

Con más de 130 años de experiencia en el diseño y la fabricación de grifería de alta calidad, **ramonsoler** demuestra que sigue creciendo y esta presencia en Mexico supone un paso muy importante para nosotros.

With more than 130 years of history, **ramonsoler** has a flagship store in the heart of Barcelona. Located at 107 Vía Augusta street, the space stands out for its powerful industrial style.

The firm presents in this space a flagship shop where it invites you to discover its extensive catalogue of taps and fittings for bathrooms, kitchens, contract and public spaces.

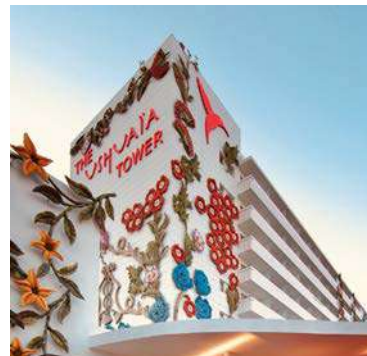

The interior design, by **Carmen Barasona**, takes the visitor on an experiential journey in which design and water are the protagonists.

In October 2023, ramonsoler opened its new **Flagship Store in Mexico City**. This cutting-edge space not only showcases a display of faucet products and accessories, but also reflects the company's commitment to innovation and sustainability.

The new shop is located in the heart of Mexico City and will allow customers to experience first-hand the quality and design that ramonsoler is known for.

With more than 130 years of experience in the design and manufacture of high quality faucets, **ramonsoler** demonstrates that it continues to grow and this presence in Mexico is a very important step for us.

Características Técnicas

- Cartucho monomando cerámico Ø25 mm y Ø35 mm.
- Cartuchos monomando Ø35 mm con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulación de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura cerámica 1/2" para regulación de caudal.
- Montura cerámica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Lavabo 9 l/min. Bidé 6 l/min. Ducha 12 l/min. Baño 20 l/min.
- Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Single-lever ceramic cartridge Ø35 mm and Ø40 mm.
- Single-lever ceramic cartridge Ø35 mm with Thermostop Block system for limiting the maximum hot water temperature, S2 water-saving system by opening the handle in two phases.
- 2-way diverter without flow regulation and without cut-off system
- 3-way diverter, without flow regulation and without cut-off system
- Thermostatic cartridge with Hot Block anti-burn system and Thermostop temperature blocking system at 38°C.
- Ceramic valve 1/2" for flow regulation.
- Ceramic valve 3/4" for flow regulation.
- 2-way diverter, with flow regulation and cut-off system
- Flow rate at 3 bar: Washbasin 9 l/min. Bidet 6 l/min.
- Shower 12 l/min. Bath 20 l/min.
- Acoustic level at 3 bars: < 20 dB.
- Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
- Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
- It resists static pressures ≤ 10 bars and water hammers at 25 bars.
- Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
- Working pressure between 1-5 bars, recommended: 3 bars.
- Resistant to thermal shock and chemical anti legionella.
- Zinc-magnesium anti-corrosion sacrificial anode.
- Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.

LÍNEAS LIMPIAS Y FORMAS GEOMÉTRICAS

CLEAN LINES AND GEOMETRIC SHAPES

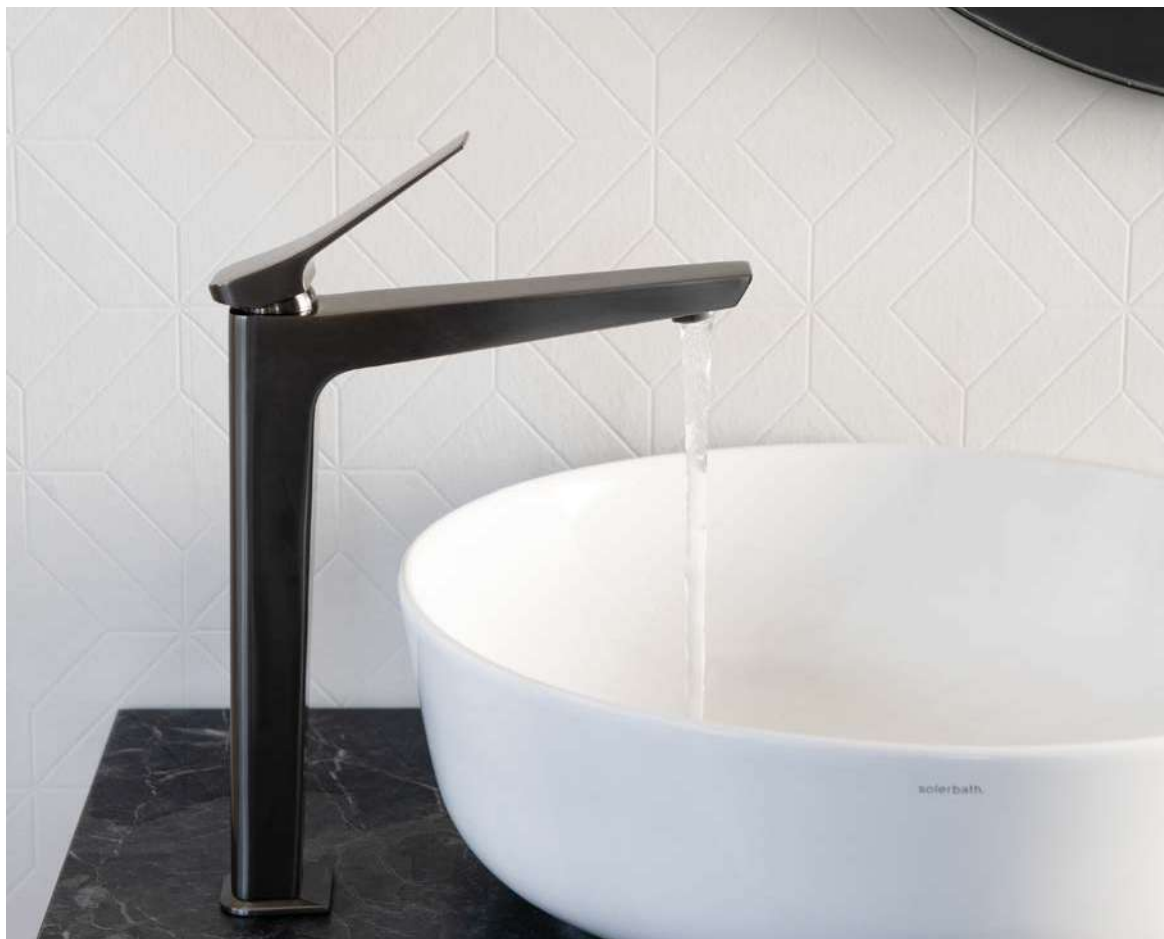

Con una gama excepcional de productos que fusionan diseño contemporáneo y funcionalidad avanzada, Prisma establece nuevos estándares en el mundo de la grifería para baños. La colección ha sido concebida con un diseño vanguardista que redefine la estética de cualquier espacio. Líneas limpias y formas geométricas se entrelazan para crear piezas que no solo son visualmente impresionantes, sino también funcionales y ergonómicas, brindando una experiencia única a los usuarios.

With an exceptional range of products that fuses contemporary design and advanced functionality, Prisma sets new standards in the world of bathroom fittings. The collection has been conceived with an avant-garde design that redefines the aesthetics of any space. Clean lines and geometric shapes intertwine to create pieces that are not only visually stunning, but also functional and ergonomic, providing a unique user experience.

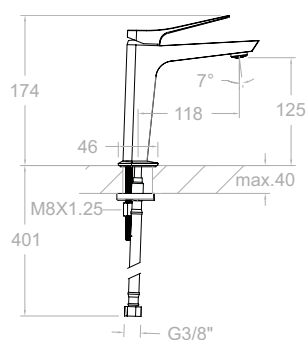

Cabe destacar que Prisma lleva integrado un sistema de ahorro de agua, el cual limita el caudal a un máximo de 8 litros por minuto. Cada gota cuenta, y con ramonsoler, el compromiso con la sostenibilidad se convierte en una realidad tangible en todo el baño.

It is worth mentioning that Prisma has an integrated water saving system, which limits the flow rate to a maximum of 8 litres per minute. Every drop counts, and with ramonsoler, the commitment to sustainability becomes a tangible reality throughout the bathroom.

CUERPOS ELEGANTES DE DISEÑO

ELEGANT DESIGN BODIES

La esencia de la innovación y la arquitectura se manifiesta más que nunca. Odisea nace de la evolución de las griferías con cuerpos elegantes de diseño geométrico que rebosa inspiración. Una propuesta que evoca la elegancia de diseños minimalistas contemporáneos. Es una colección de cuerpos cilíndricos. Su base principal con faldón recoge un cuerpo estilizado, con un caño, cuyo final inclinado ofrece la salida del agua más precisa y controlada.

Las gamas disponibles en esta colección se presentan en cuatro acabados de diferentes estilos: el infalible cromado, negro mate efecto velvet anti-huellas, cobre y oro cepillado. Todos ellos ejecutados bajo el innovador sistema Quality Finish, que garantiza una mayor resistencia y durabilidad para las exigencias del uso diario, y proporciona una solución confiable.

The essence of innovation and architecture is more apparent than ever. Odisea is born from the evolution of taps with elegant bodies of geometric design that brims with inspiration. A proposal that evokes the elegance of contemporary minimalist designs. It is a collection of cylindrical bodies. Its main base with a skirted skirt contains a stylised body, with a spout, the sloping end of which offers the most precise and controlled water outlet.

The ranges available in this collection are presented in four finishes in different styles: in infallible chrome, in matt black anti-fingerprint velvet effect and in brushed gold and copper. All of them executed under the innovative Quality Finish system, which guarantees greater resistance and durability for the demands of daily use, and provides a reliable solution.

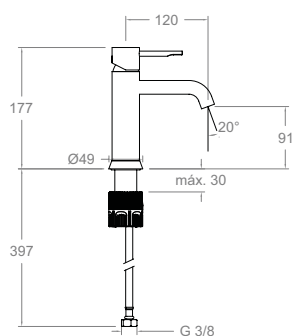

Su mando presenta una fina manecilla redondeada con una hendidura en su interior, para mejorar la ergonomía. Un diseño diferente, moderno y muy elegante. Además, lleva incorporados sistemas patentados para una instalación eficiente sin herramientas, como Tool Free; y ecosostenibles, como el ahorro de agua S2 y limitados a 5 litros. Estos sistemas aportan calidad, durabilidad y valor en la experiencia de uso.

Its knob has a fine rounded handle with an indentation on the inside to improve ergonomics. A different, modern and very elegant design. In addition, it incorporates patented systems for efficient installation without tools, such as Tool Free; and eco-sustainable systems, such as the S2 water saving and limited to 5 litres. These systems provide quality, durability and value in the user experience.

ODISEA JOYA

Odisea Joya presenta un diseño excepcional, un cuerpo cilíndrico con una base en forma de faldón y un caño cilíndrico y fino, con una singular inclinación para una salida del agua más precisa y controlada. El mando es uno de sus elementos más característicos, gracias a sus dimensiones controladas y a su manecilla redondeada con una muesca en su extremo.

El cuerpo de Odisea Joya expresan movimiento y dinamismo, cualidades propias de la arquitectura contemporánea que recuerdan a obras como el “Edificio Chrysler” en Manhattan, de William Van Alen, o la torre “30 St Mary Axe” en Londres, de Norman Foster. Un diseño inspirado en la reconocida serie Joya, creada en 1968 por el mismo Ramon Soler Roger, fundador de Ramon Soler.

Odisea Joya has an exceptional design consisting of a cylindrical body with a flared base and a slim, cylindrical shaft with a singular inclination for a more precise, controlled water flow. The handle is one of its most characteristic elements, thanks to its controlled dimensions and its rounded lever with a notch at the end.

The body of the Odisea Joya express movement and dynamism, qualities of modern architecture that remind us of structures such as the “Chrysler Building” in Manhattan, by William Van Alen, or the “30 St Mary Axe” Tower in London, by Norman Foster. It has a rhomboid design, inspired by the famous Joya series created in 1968 by Ramon Soler Roger, the founder of Ramon Soler.

Sifón.
Brass siphon.

Características Técnicas

- Montura ceràmica 1/2" para regulación de caudal.
- Cartucho monomando cerámico Ø35 mm.
- Cartuchos monomando con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulación de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura ceràmica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Lavabo y Bidé 5 l/min. Fregadero 8 l/min. Ducha 12 l/min. Baño 20 l/min.
- Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Ceramic valve 1/2" for flow regulation.
- Single-lever ceramic cartridge Ø35 mm.
- Single-lever mixer cartridges with Termostop Block system for limiting the maximum hot water temperature, S2 water-saving system by opening the handle in two phases.
- 2-way diverter without flow regulation and without cut-off system.
- 3-way diverter, without flow regulation and without cut-off system.
- Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
- Ceramic valve 3/4" for flow regulation.
- 2-way diverter, with flow regulation and cut-off system.
- Flow rate at 3 bar: Washbasin and bidet 5 l/min. Sink 8 l/min.
- Shower 12 l/min. Bath 20 l/min.
- Acoustic level at 3 bars: < 20 dB.
- Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
- Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
- It resists static pressures ≤ 10 bars and water hammers at 25 bars.
- Recommended temperature for the hot water 55°C. Maximum working temperature 65 °C. Maximum 1h at 90 °C.
- Working pressure between 1-5 bars, recommended: 3 bars.
- Resistant to thermal shock and chemical anti legionella.
- Zinc-magnesium anti-corrosion sacrificial anode.
- Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.

GEOMETRÍA ORGÁNICA

ORGANIC GEOMETRY

Geometría orgánica y una divina proporción se fusionan para Adagio. La colección cuenta con diferentes modelos en perfecto equilibrio entre la funcionalidad, la estética y el diseño. Su cuerpo elegante y moderno, combinado con su excelente fabricación, hace que esta colección sea la elección perfecta para cualquier baño.

Adagio acumula tres reconocimientos internacionales otorgados por un diseño excelente: IF Design Award 2023, German Design Award 2023 y el prestigioso premio Good Design del Chicago Athenaeum Museum of Architecture and Design.

Organic geometry and divine proportion merge for Adagio. The collection features different models in perfect balance between functionality, aesthetics and design. Its elegant and modern body, combined with its excellent workmanship, makes this collection the perfect choice for any bathroom.

Adagio has won three international awards for excellent design: IF Design Award 2023, German Design Award 2023 and the prestigious Good Design Award from the Chicago Athenaeum Museum of Architecture and Design.

A parte de destacar por su diseño y belleza, Adagio representa la innovación tecnológica. Los grifos de lavabo empotrado de esta colección premiada tienen un sistema de montaje sencillo sin tornillos que protege las piezas delicadas, manteniendo así una estética limpia y elegante.

Además, su sistema patentado de montaje sin tornillos es una solución sencilla y efectiva, que permite ahorrar tiempo y esfuerzo en la instalación.

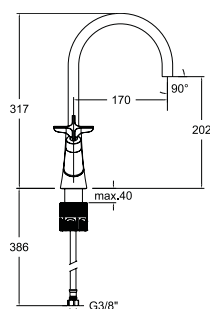

As well as standing out for its design and beauty, Adagio represents technological innovation. The built-in basin taps of this award-winning collection have a simple screwless mounting system that protects delicate parts, thus maintaining a clean and elegant aesthetic.

Its patented screwless mounting system is a simple and effective solution, saving time and effort during installation.

Características Técnicas

- Cartucho monomando cerámico Ø25 mm, Ø35 mm y Ø40 mm.
- Cartuchos monomando de Ø35 mm y Ø40 mm, con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulación de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura cerámica 1/2" para regulación de caudal.
- Montura cerámica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Lavabo y Bidé 6 l/min. Ducha 12 l/min. Baño 20 l/min.
- Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Single-lever ceramic cartridges Ø25 mm, Ø35 mm and Ø40 mm.
- Single-lever mixer cartridges Ø35 mm and Ø40 mm with Thermostop Block system for limiting the maximum hot water temperature, S2 water-saving system by opening the handle in two phases.
- 2-way diverter without flow regulation and without cut-off system.
- 3-way diverter, without flow regulation and without cut-off system.
- Thermostatic cartridge with Hot Block anti-burn system and Thermostop temperature blocking system at 38°C.
- Ceramic valve 1/2" for flow regulation.
- Ceramic valve 3/4" for flow regulation.
- 2-way diverter, with flow regulation and cut-off system.
- Flow rate at 3 bar: Washbasin and Bidet 6 l/min. Shower 12 l/min. Bath 20 l/min.
- Acoustic level at 3 bars: < 20 dB.
- Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
- Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
- It resists static pressures ≤ 10 bars and water hammers at 25 bars.
- Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
- Working pressure between 1-5 bars, recommended: 3 bars.
- Resistant to thermal shock and chemical anti legionella.
- Zinc-magnesium anti-corrosion sacrificial anode.
- Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.

ARMONÍA ENTRE NATURALEZA Y URBANISMO

HARMONY OF NATURE AND URBANISM

La colección cuyo concepto fusiona el deseo de naturaleza del ser humano con su espíritu urbano, destacando su tecnología Tourbillon, con un circuito de agua sostenible que controla la fuerza y tensión del agua.

La serie Urban Chic ha recibido tres prestigiosos premios reconocidos internacionalmente como sellos de excelencia en el diseño: iF Design Award 2020, German Design Award Special 2022 y Red Dot 2022. Todos ellos están otorgados por un jurado internacional formado por prestigiosos expertos del mundo del diseño. Estos reconocimientos son un testimonio del compromiso de la firma con la excelencia en el diseño, la innovación y con la funcionalidad.

The collection whose concept fuses man's desire for nature with his urban spirit, highlighting its tourbillon technology, with a sustainable water circuit that controls the force and tension of the water.

The Urban Chic series has received three prestigious awards recognized internationally as seals of design excellence: iF Design Award 2020, German Design Award Special 2022 and Red Dot 2022. All of them are awarded by an international jury made up of prestigious experts from the world of design. These awards are a testament to the firm's commitment to design excellence, innovation, and functionality.

Inspirado en un manantial en el bosque, el sistema Tourbillon da vida a Urban Chic. Esta exclusiva tecnología, patentada por ramonsoler, redefine la experiencia del agua al controlar su fuerza y tensión para ofrecer una salida suave y silenciosa, creando un ambiente de serenidad absoluta. El agua pasa por un cartucho especializado que regula su temperatura y caudal. A continuación, el agua desciende hacia la base del grifo, donde pierde su fuerza al impactar contra el fondo. Desde ahí, se dirige a un circuito en espiral, en el que libera energía, antes de emerger como una cascada clara y tranquila, evocando la pureza de un manantial.

Inspired by a spring in the forest, the Tourbillon system creates Urban Chic. This exclusive technology, patented by ramonsoler, redefines the experience of water by controlling its force and tension to provide a soft and silent water outlet, creating an atmosphere of absolute serenity. The water passes through a specialized cartridge that regulates its temperature and flow rate. The water then descends to the base of the faucet, where it loses its force on impact with the bottom. From there, it is directed into a spiral circuit, where it releases energy, before emerging as a clear and calm waterfall, evoking the purity of a spring.

Características Técnicas

- Certificación AENOR.
- Cartuchos monomando cerámicos Ø25 mm, Ø35 mm y Ø40 mm.
- Cartuchos monomando Ø35 mm y Ø40 mm con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases y sistema de ahorro de energía S3 mediante apertura central en frío.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulación de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura cerámica 1/2" para regulación de caudal.
- Montura cerámica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Lavabo y Fregadero 12 l/min. Lavabo un agua 9 l/min. Bidé 5 l/min.
- Ducha 12 l/min. Baño 20 l/min.
- Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Certification AENOR.
- Single-lever ceramic cartridges Ø25 mm, Ø35 mm and Ø40 mm.
- Single-lever mixer cartridges Ø35 mm and Ø40 mm with Thermostop Block system for limiting the maximum hot water temperature, S2 water-saving system by opening the handle in two phases and S3 energy-saving system by central cold opening.
- 2-way diverter without flow regulation and without cut-off system.
- 3-way diverter, without flow regulation and without cut-off system.
- Thermostatic cartridge with Hot Block anti-burn system and Thermostop temperature blocking system at 38°C.
- Ceramic valve 1/2" for flow regulation.
- Ceramic valve 3/4" for flow regulation.
- 2-way diverter, with flow regulation and cut-off System.
- Flow rate at 3 bar: Washbasin and sink (12 l/min). Washbasin one water 9 l/min. Bidet 5 l/min. Shower 12 l/min. Bath 20 l/min.
- Acoustic level at 3 bar: < 20 dB.
- Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
- Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
- It resists static pressures ≤ 10 bars and water hammers at 25 bars.
- Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
- Working pressure between 1-5 bars, recommended: 3 bars.
- Resistant to thermal shock and chemical anti legionella.
- Zinc-magnesium anti-corrosion sacrificial anode.
- Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.

ÁNGULOS RECTOS Y LÍNEAS REDONDAS

RIGHT ANGLES AND ROUNDED LINES

El diseño de Alexia se inspira en formas cónicas y ergonómicas, prestando atención a cada detalle de la grifería, para conseguir un efecto delicado y a la vez estilizada y esbelta, con un caño que acaba coronado por una maneta de líneas suaves y minimalistas. Los acabados se presentan en un clásico cromado, en un vanguardista oro cepillado, en un elegante negro mate, en un atemporal níquel cepillado y un novedoso grafito.

The design of Alexia is inspired by conical and ergonomic shapes, paying attention to every detail of the faucet, to achieve a delicate yet dynamic effect, with a spout crowned by a handle with smooth, minimalist lines. The finishes come in classic chrome, avant-garde brushed gold, elegant matt black, timeless brushed nickel and a new graphite.

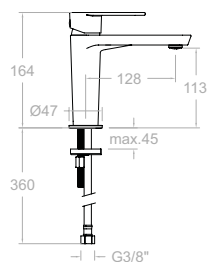

Las mejores cadenas hoteleras internacionales, como Hilton o Grand Palladium, han optado por Alexia como una elección destacada. La elegancia, versatilidad y sostenibilidad de esta grifería se alinea perfectamente con los valores y estándares de excelencia que estas cadenas buscan transmitir a sus huéspedes. La combinación de líneas limpias, formas ergonómicas y acabados de alta calidad crea un ambiente de lujo y añade un toque de distinción a los baños de los hoteles.

The best international hotel chains, such as Hilton or Grand Palladium, have opted for Alexia as an outstanding choice. The elegance, versatility and sustainability of this faucet aligns perfectly with the values and standards of excellence that these chains seek to convey to their guests. The combination of clean lines, ergonomic shapes and high quality finishes creates a luxurious ambience and adds a touch of distinction to hotel bathrooms.

Sifón.
Brass siphon.

Características Técnicas

- Certificación AENOR.
- Cartucho monomando cerámico Ø35 mm.
- Cartucho monomando con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulación de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura cerámica 1/2" para regulación de caudal.
- Montura cerámica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Lavabo y Fregadero 12 l/min. Bidé 5 l/min. Ducha 12 l/min. Baño 20 l/min.
- Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Certification AENOR.
 - Single-lever ceramic cartridge Ø35 mm.
 - Single-lever mixer cartridge with Thermostop Block system for limiting the maximum hot water temperature, S2 water-saving system by opening the handle in two phases.
 - 2-way diverter without flow regulation and without cut-off system.
 - 3-way diverter, without flow regulation and without cut-off system.
 - Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
 - Ceramic valve 1/2" for flow regulation.
 - Ceramic valve 3/4" for flow regulation.
 - 2-way diverter, with flow regulation and cut-off system.
 - Flow rate at 3 bar: Washbasin and sink 12 l/min. Bidet 5 l/min. Shower 12 l/min. Bath 20 l/min.
 - Acoustic level at 3 bars: < 20 dB.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.
 - Zinc-magnesium anti-corrosion sacrificial anode.
 - Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.
-

LÍNEAS LIMPIAS Y FORMAS GEOMÉTRICAS

CLEAN LINES AND GEOMETRIC SHAPES

Con una gama excepcional de productos que fusionan diseño contemporáneo y funcionalidad avanzada, Prisma establece nuevos estándares en el mundo de la grifería para baños. La colección ha sido concebida con un diseño vanguardista que redefine la estética de cualquier espacio. Líneas limpias y formas geométricas se entrelazan para crear piezas que no solo son visualmente impresionantes, sino también funcionales y ergonómicas, brindando una experiencia única a los usuarios.

With an exceptional range of products that fuses contemporary design and advanced functionality, Prisma sets new standards in the world of bathroom fittings. The collection has been conceived with an avant-garde design that redefines the aesthetics of any space. Clean lines and geometric shapes intertwine to create pieces that are not only visually stunning, but also functional and ergonomic, providing a unique user experience.

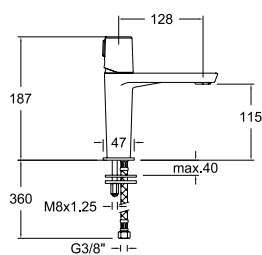

Tzar es la colección de la vanguardia y el diseño moderno por su estética simétrica y firme. Una grifería con personalidad, que transmite fuerza y elegancia, consiguiendo sumar importancia y carácter al baño.

Tzar is the collection of the avant-garde and modern design for its symmetrical and firm aesthetics. A faucet with personality, that transmits strength and elegance, adding importance and character to the bathroom.

Brass siphon.

Características Técnicas

- Certificación AENOR.
- Cartuchos monomando cerámicos Ø35 mm y Ø40 mm.
- Cartuchos monomando con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases y sistema de ahorro de energía S3 mediante apertura central en frío.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulación de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura cerámica 1/2" para regulación de caudal.
- Montura cerámica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Lavabo, Bidé y Fregadero 12 l/min. Ducha 12 l/min. Baño 20 l/min. Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Certification AENOR.
- Single-lever ceramic cartridges Ø35 mm and Ø40 mm.
- Single lever cartridges with Termostop Block System for limiting the maximum hot water temperature and S2 water Saving System by opening the handle in two phases and S3 energy saving system by central cold opening.
- 2-way diverter without flow regulation and without cut-off system.
- 3-way diverter, without flow regulation and without cut-off system.
- Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
- Ceramic valve 1/2" for flow regulation.
- Ceramic valve 3/4" for flow regulation.
- 2-way diverter, with flow regulation and cut-off system.
- Flow rate at 3 bar: Washbasin, Bidet and Sink 12 l/min. Shower 12 l/min. Bath 20 l/min.
- Acoustic level at 3 bars: < 20 dB.
- Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
- Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
- It resists static pressures ≤ 10 bars and water hammers at 25 bars.
- Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
- Working pressure between 1-5 bars, recommended: 3 bars.
- Resistant to thermal shock and chemical anti legionella.
- Zinc-magnesium anti-corrosion sacrificial anode.
- Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.

DISEÑO MINIMALISTA

MINIMALIST DESING

La serie Drako es una completa colección que abarca desde monomandos de lavabo de diferentes alturas, monomandos baño-ducha y conjuntos de baño para repisa hasta grandes duchas. Esta gama completa ha sido concebida para ofrecer una solución integral que permite equipar todo un baño con un estilo único y distintivo. Drako destaca por su minimalismo y modernidad, combinando líneas limpias y formas geométricas.

The Drako series is a complete collection ranging from single lever basin mixers of different heights, bath-shower mixers and shelf-mounted bath sets to large showers. This complete range has been conceived to offer a comprehensive solution to equip an entire bathroom with a unique and distinctive style. Drako stands out for its minimalism and modernity, combining clean lines and geometric shapes.

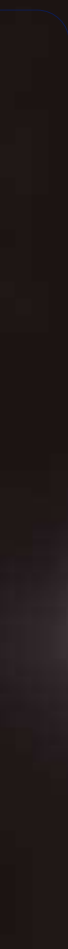

El sistema de apertura de agua en frío de ramonsoler incentiva al uso responsable del agua y la energía, por lo que se convierte en un gran avance en la lucha por el ahorro energético. Cuando se necesite usar agua caliente, bastará con mover la maneta 90 grados hacia la izquierda desde la posición central, y tanto la temperatura como el caudal de agua responderán rápidamente. Para usos cotidianos que no necesiten agua caliente, simplemente se levanta la maneta del grifo en el centro. La apertura de agua en frío sumado al tope intermedio hace de esta tecnología un sistema de apertura en frío único, que permite ahorrar agua y energía en una misma grifería.

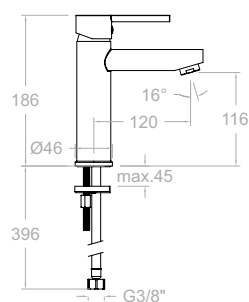

ramonsoler's cold water opening system encourages the responsible use of water and energy, making it a major breakthrough in the fight for energy savings. When you need to use hot water, simply move the handle 90 degrees to the left from the central position, and both the temperature and the water flow rate will respond quickly. For everyday uses that do not require hot water, simply lift the tap handle in the centre. The cold water opening combined with the intermediate stop makes this technology a unique cold water opening system, which saves water and energy in the same tap.

ramonsoler.

Características Técnicas

- Montura ceràmica 1/2" para regulación de caudal.
- Inversor de 2 vías manual para baño.
- Distribuidor de 2 vías, sin regulacion de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulacion de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura ceràmica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Lavabo, Bidé y Fregadero 12 l/min. Ducha 12 l/min. Baño 20 l/min. Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.

Technical Characteristics

- Ceramic valve 1/2" for flow regulation.
 - 2-way manual bath diverter.
 - 2-way diverter without flow regulation and without cut-off system.
 - 3-way diverter, without flow regulation and without cutt-off system.
 - Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
 - Ceramic valve 3/4" for flow regulation.
 - 2-way diverter, with flow regulation and cut-off system.
 - Flow rate at 3 bar: Washbasin, Bidet and Sink 12 l/min. Shower 12 l/min. Bath 20 l/min.
 - Acoustic level at 3 bars: < 20 dB.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.

Gaudi

CR

ESTÉTICA VINTAGE Y BELLEZA INSUPERABLE

VINTAGE AESTHETICS AND UNBEATABLE BEAUTY

Gaudí es un clásico atemporal que marca la diferencia en cualquier proyecto. Esta colección cuenta con un diseño de líneas orgánicas que dan como resultado una serie de estética vintage con una belleza insuperable. Puede lucir en un ambiente clásico, de campo, o en un entorno de la vanguardia más actual.

Gaudí is a timeless classic that makes a difference in any project. This collection has a design with organic lines that result in a series of vintage aesthetics with an unbeatable beauty. It can look great in a classic, country setting or in a modern avantgarde environment.

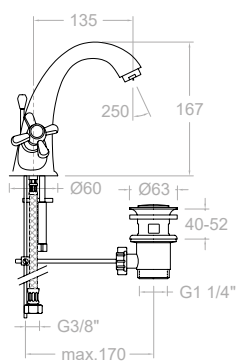

El diseño de la colección Gaudí es hoy en día el comodín para cualquier decoración de baño o cocina. La gama ofrece una propuesta integral con una completa selección de griferías bimando, monomando y termostáticos, que además de encajar a la perfección en proyectos residenciales, es una serie apta para el sector hotelero.

The design of the Gaudí collection is nowadays the wildcard for any bathroom or kitchen decoration. The range offers a comprehensive proposal with a complete selection of two-handle, single lever and thermostatic taps, which in addition to fitting perfectly in residential projects, is a series suitable for the hotel sector.

Sifón.
Brass siphon.

Características Técnicas

- Cartuchos monomando cerámicos Ø35 mm y Ø40 mm.
- Cartuchos monomando con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases y sistema de ahorro de energía S3 mediante apertura central en frío.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Caudal a 3 bar: Lavabo, Bidé y Fregadero 12 l/min. Ducha 12 l/min). Baño 20 l/min. Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.

Technical Characteristics

- Single-lever ceramic cartridges Ø35 mm and Ø40 mm.
 - Single lever cartridges with Termostop Block System for limiting the maximum hot water temperature and S2 water Saving System by opening the handle in two phases and S3 energy saving system by central cold opening.
 - 2-way diverter without flow regulation and without cut-off system.
 - Flow rate at 3 bar: Washbasin, Bidet and Sink 12 l/min. Shower 12 l/min. Bath 20 l/min.
 - Acoustic level at 3 bars: < 20 dB.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.
 - Zinc-magnesium anti-corrosion sacrificial anode.

Sifón.
Brass siphon.

Características Técnicas

- Montura convencional 1/2" para regulación de caudal.
- Montura convencional 3/4" para regulación de caudal.
- Inversor de 2 vías para baño, automático y manual.
- Caudal a 3 bar: Lavabo, Bidé y Fregadero 12 l/min. Ducha 12 l/min). Baño 20 l/min. Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.

Technical Characteristics

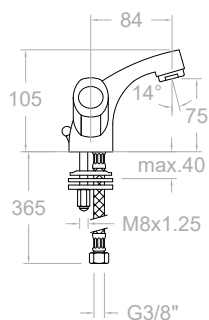

- Conventional valve 1/2" for flow regulation.
 - Conventional valve 3/4" for flow regulation.
 - 2-way automatic and manual bathroom inverter.
 - Flow rate at 3 bar: Washbasin, Bidet and Sink 12 l/min. Shower 12 l/min. Bath 20 l/min.
 - Acoustic level at 3 bars: < 20 dB.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.
-

Sifón.
Brass siphon.

Características Técnicas

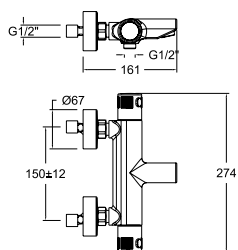

- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura cerámica 1/2" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Ducha 12 l/min. Baño 20 l/min. Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
 - Ceramic valve 1/2" for flow regulation.
 - 2-way diverter, with flow regulation and cut-off system.
 - Flow rate at 3 bar: Shower 12 l/min. Bath 20 l/min.
 - Acoustic level at 3 bars: < 20 dB.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.
 - Zinc-magnesium anti-corrosion sacrificial anode.
 - Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.

MONOTECH

Nuestro sistema patentado monocontrol es sinónimo de innovación, versatilidad y confort, diseñado por nuestro departamento de I+D, siendo un gran logro tecnológico de **ramonsoler**.

Una de las características más destacadas de este revolucionario sistema es su cartucho mezclador de agua fría y caliente que, además, es intercambiable en todos los cuerpos de grifería termostática de **ramonsoler**. Esta funcionalidad permite una transformación sencilla y rápida del sistema termostático al sistema monocontrol.

Our patented monocontrol system is synonymous with innovation, versatility and comfort, designed by our I+D department, being a great technological achievement of **ramonsoler**.

One of the most outstanding features of this revolutionary system is its hot and cold water mixing cartridge, is interchangeable in all **ramonsoler** thermostatic faucet bodies. This functionality allows a simple and fast transformation from thermostatic to monocontrol system.

CARTUCHO MEZCLADOR DE AGUA FRÍA Y CALIENTE

HOT AND COLD WATER MIXING CARTRIDGE

N New

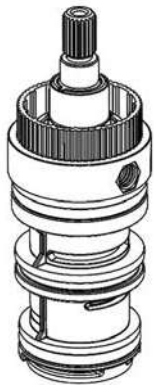

El sistema monocontrol se enfoca en la facilidad de uso y, a su vez, incorpora una avanzada tecnología antical, diseñada específicamente para prevenir la acumulación de calcio y otros depósitos minerales.

The monocontrol system focuses on ease of use while incorporating advanced anti-scale technology, specifically designed to prevent the accumulation of calcium and other mineral deposits.

Su cartucho cuenta con un diseño que no requiere filtros, lo que garantiza un funcionamiento fiable y sin complicaciones. Gracias a esta solución, garantizamos un rendimiento duradero y fiable del sistema, incluso en condiciones extremas, como altas diferencias de temperatura y presión en el suministro de agua.

Its cartridge design is filter-free, ensuring reliable and trouble-free operation. Thanks to this solution, we guarantee long-lasting and reliable system performance, even under extreme conditions such as high temperature and pressure differences in the water supply.

Además, nuestro sistema es completamente funcional en instalaciones que presentan entradas de aguas invertidas. Esto garantiza que los usuarios experimenten siempre el máximo confort de uso, sin importar las particularidades de su instalación.

In addition, our system is fully functional in installations with inverted water inlets. This ensures that users always experience maximum user comfort, regardless of the particularities of their installation.

Características Técnicas

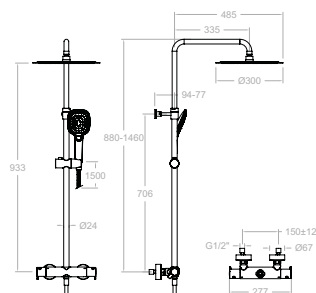

- Cartucho monomando cerámico Ø35 mm.
- Cartucho monomando con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases.
- Distribuidor de 2 vías, sin regulación de caudal y sin cierre.
- Distribuidor de 3 vías, sin regulación de caudal y sin cierre.
- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura cerámica 1/2" para regulación de caudal.
- Montura cerámica 3/4" para regulación de caudal.
- Distribuidor de 2 vías con regulación de caudal y cierre.
- Caudal a 3 bar: Ducha 12 l/min. Baño 20 l/min. Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Single-lever ceramic cartridge Ø35 mm.
 - Single-lever mixer cartridge with Termostop Block system for limiting the maximum hot water temperature, S2 water-saving system by opening the handle in two stages.
 - 2-way diverter without flow regulation and without cut-off system.
 - 3-way diverter, without flow regulation and without cut-off system.
 - Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
 - Ceramic valve 1/2" for flow regulation.
 - Ceramic valve 3/4" for flow regulation.
 - 2-way diverter, with flow regulation and cut-off system.
 - Flow rate at 3 bar: Shower 12 l/min. Bath 20 l/min.
 - Acoustic level at 3 bars: < 20 dB.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.
 - Zinc-magnesium anti-corrosion sacrificial anode.
 - Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.
-

Cartucho Cartridge: 1703T + 4000

Características Técnicas

- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Pulsador de cierre con regulación de caudal.
- Caudal a 3 bar: Mínimo 7 l/min. Máximo 25 l/min.
- Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Cooltouch, sistema que permite mantener la grifería templada al tacto para evitar quemaduras.

Technical Characteristics

- Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
 - Shut-off push button with flow regulation.
 - Flow rate at 3 bars: Minimum 7 l/min. Maximum 25 l/min.
 - Acoustic level at 3 bars: < 20 dB.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.
 - Cooltouch, a system that keeps the faucet warm to the touch to avoid burns.

La ducha inteligente The intelligent shower

RS Smart es un empotrado termostático de 2 y 3 vías inteligente, capaz de funcionar al mismo tiempo con diferentes salidas de agua y con regulación de caudal individual para cada salida de agua, de esta manera, RS Smart se adapta a las necesidades del usuario en cada momento.

Con RS Smart se consigue una ducha perfecta: selección de temperatura, salida de agua y intensidad del agua mediante el caudal, todo ello mediante unos botones con doble función creados en **ramonsoler**.

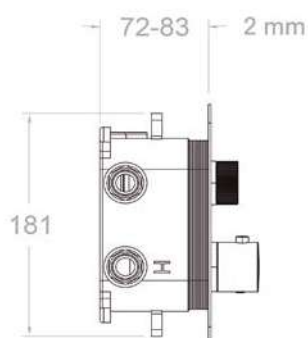

El diseño minimalista permite combinar RS Smart con toda la gama de productos de **ramonsoler**, especialmente los de hidroterapia con grandes rociadores y también permite ahorrar espacio en el baño.

RS Smart is an intelligent 2 and 3 ways concealed thermostatic mixer, capable of operating at the same time with different water outlets and with individual flow regulation for each water outlet, in this way, RS Smart adapts to the user's needs at all times.

With RS Smart you get a perfect shower: selection of temperature, water outlet and water intensity by means of the flow rate, all through dual-function buttons created by **ramonsoler**.

The minimalist design allows RS Smart to be combined with the entire range of ramonsoler products, especially the hydrotherapy products with large shower heads, and also saves space in the bathroom.

Box completamente estanco y evita filtraciones de agua en el interior de la pared. Puede ser instalada en cualquier tipo de pared, por ejemplo, pladur o standard.

Fácil instalación mediante box con profundidad mínima de 72 mm y ahorro de espacio en el baño mediante placa metálica superslim de espesor 2 mm y dimensión del volante máxima de 50 mm.

Box completely watertight and prevents water leaks inside the wall. It can be installed on any type of wall, for example plasterboard or standard.

Easy installation by means of a box with a minimum depth of 72 mm and saving space in the bathroom by means of a super slim metal plate with a thickness of 2 mm and a maximum dimension of the handle of 50 mm.

Cartucho termostático de alta precisión.

Fácil mantenimiento: permite el cambio del cartucho o de los botones pulsadores sin tener que desinstalar el grifo.

High precision thermostatic cartridge.

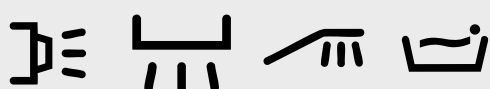

Easy maintenance: allows the change of the cartridge or the push buttons without having to uninstall the mixer.

Características Técnicas

Instalación sistema dual

FIJACIÓN MECÁNICA

- Posicionar los puntos donde taladrar.
- Atornillar la pieza de unión fuertemente en cada taco.
- Introducir el accesorio en las piezas de unión y fijar fuertemente con el tornillo prisionero.

FIJACIÓN ADHESIVA

Sealant fix: ¡Olvídate de agujerear las paredes con el pegamento Sealant fix!

- Fácil de aplicar, fácil de retirar.
- Resistente al agua.
- No tóxico.

OPCIONAL: Se pueden aplicar ambos sistemas de fijación a la vez.

Technical Characteristics

Dual System: installation by Mechanical fixing or adhesive.

MECHANICAL FIXING

- Mark the points where to drill.
- Screw the connecting piece tightly into each anchor.
- Insert the accessory in the connecting pieces and fix it with the screw.

ADHESIVE FIXATION

Sealant fix: Forget about drill the walls using Sealant Fix glue!

- Easy to apply, easy to remove.
- Waterproof.
- Non toxic.

OPTIONAL: Both fixing systems can be applied at the same time.

Características Técnicas

- Montura ceràmica 1/2" para regulación de caudal.
- Cartuchos monomando cerámicos Ø25 mm y Ø35 mm.
- Cartuchos monomando Ø35 mm con Sistema Termostop Block de limitación de la temperatura máxima del agua caliente, Sistema de ahorro de agua S2 mediante la apertura de la manecilla en dos fases.
- Caudal a 3 bar: WC Magnet 8 l/min. WC Mural 12 l/min. Nivel acústico a 3 bar: < 20 dB.
- Previene los escapes por presión estática en flexo y duchita.
- Evita siniestros por inundaciones.
- Evita recirculación del agua.
- Garantía de 5 años en grifería y 2 años en complementos.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.

Technical Characteristics

- Ceramic valve 1/2" for flow regulation.
 - Single-lever ceramic cartridge Ø25 mm and Ø35 mm.
 - Single-lever mixer cartridges Ø35 mm with Thermostop Block system for limiting the maximum hot water temperature, S2 water-saving system by opening the handle in two phases.
 - Flow rate at 3 bar: WC Magnet 8 l/min. WC Mural 12 l/min.
 - Acoustic level at 3 bar: < 20 dB.
 - Prevents leakage by static pressure in the flexible and shower.
 - Avoid damages by floods.
 - Avoid water recirculation.
 - 5-year guarantee on taps and 2-year guarantee on accessories.
 - Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
 - Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
 - It resists static pressures ≤ 10 bars and water hammers at 25 bars.
 - Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
 - Working pressure between 1-5 bars, recommended: 3 bars.
 - Resistant to thermal shock and chemical anti legionella.
 - Zinc-magnesium anti-corrosion sacrificial anode.

PROJECTS AROUND THE WORLD

Las griferías y duchas de **ramonsoler** han sido certificadas con las normativas más exigentes y sus redes comerciales se extienden a más de 40 países. Con numerosas referencias hoteleras internacionales, la firma está presente en cadenas hoteleras. Millones de usuarios utilizan diariamente nuestros productos, renovando día a día su confianza. **ramonsoler** se encuentran en las instalaciones más importantes: cadenas hoteleras internacionales, grandes hospitales, transatlánticos, grandes yates, hoteles con encanto, promociones de prestigio e incluso en promociones pioneras y sensibles al ahorro de agua y al medio ambiente.

The faucets and showers of **ramonsoler** have been certified with the most restrictive standards and its commercial networks span more than 40 countries. With numerous International hotel references, the firm is present in hotel chains. Millions of consumers use our products every day, constantly confirming their confidence in us. **ramonsoler** systems can be found at countless leading establishments: international hotel chains, large hospitals, ocean liners, super yachts, hotels with charm and even pioneering ecofriendly developments where water saving systems are installed.

GRIFERÍA EXCLUSIVA PARA HOTELES

EXCLUSIVE TAPWARE FOR HOTELS

IKOS PORTO PETRO RESORT
MALLORCA

ramonsoler es uno de los principales suministradores de la industria hotelera, que desde hace más de 25 años se supera día a día perfeccionando sus productos para sus específicas exigencias, tanto en ahorro de agua, como en seguridad, salud y pleno confort para las personas. Una buena grifería para HOTEL tiene que presentar no solo una estética depurada y de diseño, sino que también es necesario que reúna un conjunto de características técnicas que hagan de todo el conjunto una pieza idónea para proyectos del sector hotelero.

Las griferías de **ramonsoler** especialmente diseñadas para HOTELES están cuidadosamente creadas con una gran cantidad de ventajas, que beneficiarán tanto al huésped como al propietario del HOTEL.

ramonsoler is one of the foremost suppliers of tapware for the hotel industry. For more than 25 years the daily needs of these clients have been covered, including water saving, security, health and comfort for the hotel guests. A good hotel tapware not only enhances the aesthetic quality of the room but must also have a number of technical characteristics which make it ideal for this type of use.

ramonsoler brassware has been especially designed for Hotels and takes into account the needs of both the guest and hotel chain.

HOTEL CON ENCANTO CHARMING HOTEL

Cuando el cuidado por cada detalle y la calidad se encuentran en un hotel, su encanto es indiscutible. Encontrar elegancia y despertar sensaciones de serenidad en un hotel con encanto es un hecho, por su puesta en escena, su estilo sutil y su marcado carácter.

The beauty of a hotel is defined by its detail and features. A hotelier not only sells a room, but a series of sensations which clients look forward to, and these expectations must be fulfilled with a complete wellness programme.

LOS GRIFOS DEBEN CUMPLIR LAS SIGUIENTES CARACTERÍSTICAS FUNCIONALES

MIXERS & STANDARDS

La grifería sanitaria de **ramonsoler** cumple con la más estricta normativa europea del sector, sobre la que realizamos ensayos en nuestros laboratorios que se encuentran técnicamente preparados para ello:

Los grifos o mezcladores mecánicos se ensayan conforme a la norma UNE-EN817:2009 y a la norma UNE 19703:2016.

Los grifos simples y los mezcladores cumplen con la norma UNE-EN 200:2008

Los materiales en contacto con el agua no han de constituir ningún peligro para la salud a una temperatura de 90°C. No deben producir alteración alguna en el agua a nivel cualitativo, de aspecto, de olor o del gusto. Los materiales susceptibles a la corrosión serán tratados para evitarla.

Los revestimientos y las superficies significativas de los productos deben cumplir la norma UNE-EN 248:2003.

Reguladores de chorro, conexiones flexibles, flexibles de ducha, mangos de ducha y rociadores, válvulas,... todos los productos pasan por un proceso de homologación interna en base a la normativa europea aplicable, garantizando tanto los niveles de calidad como la intercambiabilidad de los mismos.

ramonsoler complies with the strictest European Standards in the sector. Our Quality Lab is technically prepared to conduct tests according such standards:

• **ramonsoler** complies with the strictest European Standards in the sector. Our Quality Lab is technically prepared to conduct tests according such standards:

• Mixers are tested in accordance with UNE-EN817: 2009

• Mixers are tested in accordance with UNE-EN 200: 2008

• Materials in contact with water must not constitute a health hazard at a temperature of 90°C. They should not produce any alteration in water quality level, appearance, odor or taste. The materials used by **ramonsoler** are hazardous free.

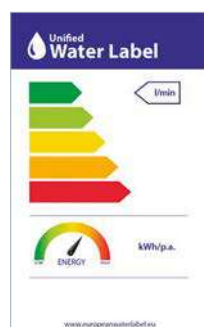

• Chromate process is tested in accordance with UNE-EN 248: 2003.

• Regulators jet, flexible connections, flexible shower, shower handles and sprinklers, valves, ... all products go through a process of internal approval based on the applicable European regulations, guaranteeing both the levels of quality and interchangeability same.

NUESTRO COMPROMISO OUR ENGAGEMENT

ramonsoler, consciente de la importancia de la grifería no sólo en la higiene sino en el ahorro de agua y energía, se ha asociado con la organización European Water Label, con el objetivo de ofrecer una gama de productos eco eficientes, que respeten el medioambiente.

Todos los productos registrados en esta entidad se identifican con la siguiente etiqueta:

SIGNIFICADO DE LA ETIQUETA

Se muestra claramente el volumen máximo de agua, si el producto se ha instalado correctamente y de acuerdo con las instrucciones del fabricante

- Bandas de rendimiento de color
- La capacidad real / rendimiento

At **ramonsoler**, we are not only aware of the importance of the tapware in hygiene but also in water saving and energy issues. This in turn has enabled us to become associated with the European Water Label organization, with the aim of offering a range of eco-efficient products that respect the environment.

All these registered products are identified with the following label:

LABEL DEFINITION

It clearly shows the maximum volume of water if the product has been installed correctly and according to the manufacturer's instructions

- Coloured performance bands
- Actual capacity/performance

CONDICIONES
DE VENTA

GENERAL SALE
CONDITIONS

CONDICIONES DE VENTA

1. Generalidades

La aceptación de un pedido implica por parte del comprador la aceptación de las presentes condiciones generales de venta, salvo acuerdo particular entre ambos mediante estipulaciones precisas incluidas en el texto de aceptación del pedido. Nuestros modelos reflejados en esta Tarifa, podrán ser modificados o eliminados sin previo aviso y sin incurrir en ninguna responsabilidad o indemnización, así como sus precios.

2. Precios

Los precios de esta Tarifa se entienden sin impuestos y considerando la mercancía puesta en nuestros almacenes. Los impuestos en vigor se establecerán en cada factura. Los pedidos cuyo importe neto sea superior a 150 € se enviarán a portes pagados dentro del territorio de España (excepto Canarias, Ceuta y Melilla, donde el importe deberá ser superior a 300 €). Los P.V.P. son precios recomendados.

3. Expediciones

Nuestros productos se consideran siempre vendidos en nuestros almacenes y la fecha de expedición es la que figura en nuestra factura. Las mercancías se expiden y viajan únicamente a riesgo (y cuenta) del destinatario, aunque sean enviadas a portes pagados. El destinatario comprobará al recibo de la mercancía el estado de la misma, indicando las posibles anomalías en el albarán del transportista. Declinamos toda responsabilidad en relación con averías o pérdidas de la mercancía por causas del transporte, así como retrasos que puedan producirse por causa del mismo. En caso de error u omisión en una entrega por nuestra parte, nuestra responsabilidad alcanza a reemplazar la pieza no conforme o la entrega de la no remitida.

4. Plazos de entrega

Los pedidos que se reciban sin indicación de fecha de entrega, se servirán en el plazo más breve de tiempo, de acuerdo con nuestras posibilidades de entrega y pudiéndolo hacer en varias expediciones. Los plazos de entrega o de expedición son dados a título orientativo. Por lo tanto, un retraso cualquiera o una expedición fraccionada no será motivo de indemnización o reclamación alguna.

5. Condiciones de pago

Las facturas serán pagadas en un plazo máximo de 60 días fecha factura.

6. Devoluciones

6.1. Devoluciones comerciales

No se admitirá ninguna devolución de material que no haya sido pactada expresamente con fábrica o con nuestro representante y autorizada por nuestra DIRECCIÓN COMERCIAL. Para cualquier devolución se definirán exactamente los motivos de la misma, teniendo en cuenta las siguientes premisas:

- No se admitirá ningún material que, tanto en modelo como en acabado, esté fuera del catálogo y/o de garantía
- No se admitirá material deteriorado, que presente evidencias de haber sido manipulado y/o instalado, o que no se devuelva en su embalaje original.
- El material que se encuentre en perfecto estado, tras ser revisado por personal técnico de fábrica, será abonado según la tarifa vigente en el momento de la compra con un demérito del 20% por gastos de gestión.
- No se aceptará ninguna devolución que no se ajuste a todo lo especificado.

6.2. Devoluciones Calidad

No se admitirá ninguna devolución de material que no haya sido gestionada a través del formulario de incidencias correspondiente y autorizada previamente por nuestro DEPARTAMENTO DE CALIDAD. Cualquier devolución por motivos de calidad debe ajustarse a las condiciones de garantía expuestas en el apartado 8 de estas condiciones generales.

8. Condiciones generales de garantía ramonsoler

ramonsoler garantiza su grifería durante 5 años ante eventuales defectos estructurales, de material o de fabricación.

Los cartuchos termostáticos, temporizados y mecanismos electrónicos tienen una garantía de 3 años.

Los accesorios (flexos, mandos de ducha, rociadores, soportes, columnas de ducha, etc...) tienen una garantía de 3 años.

Los materiales consumibles y aquellos que se desgastan por el uso ordinario (pilas, filtros, juntas, aireadores, etc...) no están cubiertos por esta garantía, excepto que se demuestren defectos de fabricación.

La fecha de adquisición debe justificarse mediante comprobante de compra.

Para que la garantía sea válida, es necesario en cada caso, la aceptación del defecto por departamento técnico de ramonsoler, quien determinará si realiza la reparación, reposición parcial o total de la pieza.

La eventual reparación o sustitución de componentes del producto afectado, no extiende la ampliación de la Garantía.

Quedan excluidos de la garantía:

- Los productos que la instalación y conexión no se haya realizada según las correspondientes instrucciones de uso o instalación.
- Los productos que la utilización, mantenimiento y limpieza no se haya realizado conforme a las indicaciones del fabricante.
- Los daños producidos por uso inadecuado, montaje defectuoso, desgaste natural o medios de mantenimiento inadecuados.
- Los daños debidos a condiciones externas como presión excesiva, condiciones ambientales extremas.
- Problemas funcionales derivados de la existencia de cuerpos extraños, como arena, restos de obra... o acumulación de cal.

En caso de que en el momento de la aplicación de garantía el producto ya no se fabrique, se suministrará un producto similar de igual calidad.

En el caso de conjuntos formados por diferentes componentes, si una de las piezas del mismo presenta un defecto de fabricación se procederá a la reparación o reposición de la pieza afectada, pero en ningún caso se sustituirá el conjunto en su totalidad.

Alcance territorial: La garantía de la grifería se aplicará en país de venta de la misma.

Vías de reclamación:

Las reclamaciones deberán dirigirse al distribuidor o proveedor del producto a fin de que éstos últimos gestionen la garantía con el fabricante.

En caso de no disponer medio de comunicación con el distribuidor/proveedor del producto o verse imposibilitado de localizarlo podrán ponerse en contacto con Industrias Ramón Soler, S.L. según la información de contacto detallada a continuación: incidencias@rsramonsoler.com y atención al cliente: + 34 93 373 80 01

9. Reserva de dominio

Los productos suministrados serán propiedad de esta SOCIEDAD Industrias Ramon Soler, S.L. hasta el pago completo de la factura correspondiente.

10. Jurisdicción

La disposición de Industrias Ramon Soler, S.L. para resolver por vía amistosa las posibles divergencias surgidas con nuestros clientes está basada en la buena fe que preside las mutuas relaciones comerciales. Ahora bien, en caso de litigio ambas partes se someterán a la jurisdicción de los Tribunales de Barcelona con renuncia expresa a cualquier otro fuero.

Seguendo la normativa REACH (Reglamento (CE) N1907/2006) Reglamento Europeo relativo al registro, evaluación, autorización y restricción de las sustancias y mezclas químicas, les informamos algunos de nuestros productos pueden contener plomo en concentraciones superiores al 0,1% m/m. El plomo fue confirmado oficialmente como una sustancia extremadamente preocupante (SVHC) y se incorporó a la lista de sustancias SVHC en enero de 2023, específicamente como una sustancia tóxica para la reproducción humana (categoría 1A). En cumplimiento con la normativa, garantizamos que nuestros productos cumplen con los requisitos establecidos para la gestión y control de estas sustancias. Si necesitan más información sobre las sustancias contenidas en nuestros productos y su conformidad con REACH, no duden en ponerse en contacto con nosotros.

Todos los productos fabricados y comercializados por Industrias Ramon Soler, S.L. cumplen con los requisitos establecidos en el Real Decreto 3/2023, de 10 de enero, que establece los criterios técnico-sanitarios de la calidad del agua de consumo, en particular para los materiales en contacto con el agua potable.

Los materiales empleados en la fabricación de esta grifería cumplen con los requisitos de composición y migración de sustancias establecidos en el Anexo I del mencionado Real Decreto.

GENERAL SALE CONDITIONS

1. General

Acceptance of an order implies that the purchase accepts these general sales conditions except in the case of separate agreement between the parties embodied in precise stipulations stated in the accepting the order. The models described in this price list may be modified or removed from sale without prior notice without incurring any liability or responsibility for damages. Prices may also be modified without prior notice.

2. Prices

The prices on this price list are before tax and ex warehouse. Applicable taxes will be established for each invoice. The retail sales prices given are our recommended prices.

3. Dispatch

Our products are always considered sold at our warehouses and the date of dispatch as stated on our invoice. Goods are dispatched exclusively at the risk and at the cost of the consignee. On reception of the goods, the consignee should check their state, reporting any anomalies on the transport delivery note. We decline all responsibility for breakage or loss of goods in transports, and for any delays in transport. In case of error or omission in a dispatch, our responsibility extends solely and exclusively to replacing the defective part or parts or the delivery of goods not dispatched.

4. Delivery times

Orders received which do not state delivery date will be satisfied in the shortest possible period of time in accordance with our possibilities, and may be dispatched in more than one consignment. Delivery times given are for guidance only, and no liability will be incurred by any delays or partial deliveries.

5. Conditions of payment

Failure to comply with previously agreed conditions of payment on the part of purchasers may lead to retention or cancellation of orders pending until the entire debt is paid. The purchasers will be liable to pay the expenses incurred by any delay in payment beyond the dates established, even if by mutual agreement.

6. Returns

6.1. Stock returns

Stock returns will not be admitted by the factory unless they have been accorded directly with our agent and authorised by the Sales Manager. For each of these returns a specific reason shall be given, taking into account the following:

- No returns will be accepted of obsolete material or goods out of warranty.
- No deteriorated material shall be accepted, which has been manipulated or installed, and which doesn't have the original packaging.
- The returned goods (after being checked by factory personnel) will be credited using a depreciation of 20% on the current list price minus the corresponding discount.
- No other types of returns shall be accepted which do not comply with the aforementioned points.

6.2. Quality control returns

No returns will be undertaken which have not been duly processed with the correct "incidents" form and authorised by the quality department. Any returns done due to quality issues will be in the warranty conditions expressed in chapter 8 of the general sales conditions.

8. Five-years guarantee

ramonsoler guarantees its tapware during 5 YEARS against structural or material or manufacturing defects.

Thermostatic cartridges, self-closing cartridges and electronic components have a guarantee of 3 years.

Accessories (flexible hose, handshowers, headshowers, wall supports, shower columns, etc...) have a guarantee of 3 years.

Consumable materials and those which wear out from ordinary use (batteries filters, aerators, seals) are not covered by this guarantee, except if they have manufacturing defects.

Date of purchase must be shown via invoice or receipt.

In order to the warranty claim to be covered, in each case the defect must be revised and accepted by ramonsoler After Sales Dept., who will determine whether repair the product, partially replace a component of the product or replace the product completely. The eventual repair or substitution of the components does not prolong the guarantee. Guarantee of the products does not apply if:

- The installation and connection to the system has been not undertaken according to the installation manual or use instructions.
- The use, maintenance and cleaning has been not undertaken in conformity with Ramon Soler instructions.
- The damage produced by an inadequate use, defect installation, natural wear out or incorrect maintenance

- The damage produced by external conditions like too high pressure or extreme environmental conditions.

- Functional problems due the impurities of the water as sand, construction waste or limestone accumulation.

If the product claimed in guarantee has been discontinued in our product line, it will be substituted by one of similar characteristics.

In the case of products set formed by different products, if a product part presents a defect, it will be repaired or changed such product part and not the rest of the components set.

The guaranteed product will be applied in the country where the product has been sold. The claim of the guarantee must be done through the retailer or distributor where the product has been sold. In case of not knowing where to claim, the claims must be addressed to Industrias Ramon Soler S.L.: incidencias@rsramonsoler.com or +34 93 373 80 01

9. Reservation of ownership

Products supplied will remain the property of ramonsoler until complete payment of the corresponding invoice has been made.

10. Jurisdiction

In the interest of conserving good commercial relations, Industrias Ramon Soler, S.L., S.L., desires to resolve any differences with our customers through amicable agreement. Nevertheless, in the case of litigation, both parties submit themselves to the jurisdiction of the courts and tribunals of Barcelona, expressly renouncing any other jurisdiction.

Following the European Regulation on registration, evaluation, authorization and restriction of chemicals REACH ((EC) No. 1907/2006), we inform you that some of our products might contain lead in concentrations over 0,1% w/w. Lead was officially confirmed as a substance of very high concern (SVHC) and was added to the list of SVHC substances in January 2023, specifically as a substance toxic to human reproduction (category 1A). In accordance with the regulations, we guarantee that our products comply with the requirements set out for the management and control of these substances. If you need more information about the substances contained in our products and their conformance with REACH, please do not hesitate to contact us.

All products manufactured and marketed by Industrias Ramon Soler, S.L. comply with the requirements established in Royal Decree 3/2023, of 10 January, which establishes the technical-sanitary criteria for the quality of drinking water, in particular for materials in contact with drinking water.

The materials used in the manufacture of these taps comply with the requirements of composition and migration of substances established in Annex I of the aforementioned Royal Decree.
